CITYWIDE TRENDS

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about 12% since its peak in the 2016-2017 school year, exacerbated by population changes during the COVID-19 pandemic.

## DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor’s Regulations A-185 and A-190.
  - **Chancellor’s Regulation A-185** governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
  - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
  - How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
  - What other school changes could be considered?

### CHANGES IN DISTRICT – 2020-21 TO 2023-24

Implementation Year	Change Type	Description	Impacted DBN(s)	Impacted Building(s)
2023-24	New District School	Opening of a New District High School, Design Works (13K963) in Building K748	13K963	K748
2023-24	Re-siting	Temporary Re-siting of P373K@K909, One Site of District 75 School P.S. K373 – Brooklyn Transition Center (75K373), from Building K909 to Building K265 and Temporary Co-location with Dr. Susan S. McKinney School of the Arts (13K265) and P.S. K369 – Coy L. Cox School (75K369)	75K373	K265
2020-21	Rezoning	Create a zone for the merged Arts and Letters	13K305, 13K492	-
2020-21	Merger	Re-siting and merger of 13K492 with 13K305 in K305	13K492, 13K305	K305
2020-21	Merger	Re-siting and Merger of 13K499 with 13K412 in K117	13K499, 13K412	K117
2020-21	New D75 Site	Opening and Co-location of 75K373 with 13K594 in K909	75K373	K909

- District 13 saw a number of major school actions over the last few years including a K-8 merger, a high school merger, and the opening of a new school.

## DISTRICT ENROLLMENT

### UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
  - What has happened to district enrollment over the last six years overall? By incoming grade (i.e. K and sixth)? Are there notable trends?
  - Are students remaining in the district to attend school? If not, where are they going?

### DISTRICT 13 ENROLLMENT, 2017-18 TO 2022-23

Source: Audited Register; includes enrollment in district schools only

- Over the last five years, total enrollment in District 13 has declined by 9%.
  - Enrollment decline has been most significant at the elementary and middle school levels, which saw five-year enrollment declines of 17% and 15% respectively.
- In the last year, total enrollment in District 13 has declined by 2%.
  - Notably, enrollment at the elementary school level stabilized with only a 1% decline.
- District 13 has more students enrolled in high school than in early childhood, elementary, and middle school combined, likely due to a few large and highly competitive high schools that students travel into the district to attend.

## DISTRICT SCHOOL ENROLLMENT

Source: Audited Register; includes enrollment in district schools only

- Since the 2019-2020 school year, district elementary enrollment in District 13 has declined by almost 14%.
- Since the 2019-2020 school year, district middle school enrollment in District 13 has declined by approximately 16%.

- Over the past five years, the number of elementary school-aged children in District 13 has declined by approximately 8.5%.
  - Approximately 52% of District 13 elementary residents are enrolled in a district school either within or outside of District 13, which is down from 56% five years ago.
  - Approximately 28% of District 13 elementary residents attend a non-public school, which is an increase of approximately 5 percentage points over the past five school years.

- Over the past five years, the number of middle school-aged children in District 13 has fluctuated, though it has consistently decreased since the 2019-2020 school year.
  - 43% of middle school-aged residents in District 13 attend a district school either within or outside of District 13, which is down from 52% in 2017-2018.
  - A greater share of District 13 middle school-aged residents attend charter and non-public schools than five years ago.
- Compared to the rest of Brooklyn, District 15 has average elementary school retention, and below average middle school retention.

- District 13 has 11 elementary schools in the bottom 25% of enrollment citywide, and all but one of those schools have seen enrolment declines of at least 12% over the past five school years.
- District 13 has seven middle schools in the bottom 25% of enrollment citywide, and five of those schools have seen enrollment declines over the past five school years.

## HIGH DEMAND SCHOOLS IN DISTRICT 13

- The tables below include the highest demand schools at kindergarten and 6<sup>th</sup> grade in the district based on applications and applications compared to seats.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

- Three of the five most in-demand elementary schools in District 13 (P.S. 20 Clinton Hill (13K020), P.S. 9 The Sarah Smith Garnet School (13K009), and P.S. 133 William A. Butler (13K133)) have dual language programs.
- The two most in-demand middle school options in District 13 have either an ASD Horizon program or a District 75 inclusion program.

## SEAT DEMAND

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.
- Guiding Questions:
  - Are there certain parts of the district with significant excess space? Areas of crowding or over-utilization?
  - How does projected enrollment compare to capacity and how do we expect that to change over time?
  - Do projections align with current, on-the-ground experience?

## DISTRICT 13 ENROLLMENT

\*Enrollment for 2017-18 through 2022-23 is based on Audited Register; enrollment for 2023-24 is based on NYCPS register estimates..

- Currently there are roughly 2,580 excess elementary school seats and 1,129 excess middle school seats in District 13.
- District 13 is expected to continue to have excess seats at the elementary and middle school level over the next several years as enrollment is trending downward and new capacity is scheduled to open.
- K748 will open in the 2023-2024 school year and will temporarily house Design Works (13K963) before ultimately serving as elementary school capacity.

## BUILDINGS & CAPACITY

### SCHOOL & BUILDING UTILIZATION WITHIN THE DISTRICT

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
  - Given the current and projected capacity trends presented in the preceding Demand and Capacity section, does the district have sufficient capacity to meet its needs and support its students?
  - Is over- or under-utilization concentrated at a particular grade level? In a particular area?
  - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

### BUILDING SUMMARY

	District 13	Brooklyn
<b>Count of Buildings</b>	<b>42</b>	<b>477</b>
<b>Under-Utilized Buildings</b>	<b>22</b>	<b>195</b>
150-299	11	72

<i>TCUs with Plan for Removal</i>	0	0
<i>Remaining TCUs</i>	0	6

Source: Building information from LCGMS. Building utilization categories based on the 2021-2022 Blue Book.

- There are 22 under-utilized buildings in District 13, 11 of which have 300 or more excess seats.
- There are 6 buildings over 100% utilization in District 13.

**DISTRICT 13 UNDER-UTILIZED BUILDINGS**

Under-utilized Buildings in District 13 with 300+ Excess Seats

Source: Graph shows enrollment and capacity from 2021-2022 Blue Book; UU status is from the 2022-2023 UU Memo, and accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- Utilization rates do not always capture the full narrative of space in a building, but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- K805 houses Urban Assembly School of Music and Art (13K350), Science Skills Center High School for Science, Technology and the Creative Arts (13K419), and Brooklyn International High School (13K439) and has 710 excess seats, the most excess space of any building in District 13.

### DISTRICT 13 BUILDINGS OVER 100% UTILIZATION

Buildings Over 100% Utilization in District 13

Source: 2021-2022 Blue Book

- There are 2 buildings in District 13 operating at over 120% utilization.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.

## DISTRICT 75

- NYCPS’s District 75 provides highly specialized instructional support for students with significant challenges, such as ASD, significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
  - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
  - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
  - Does the district have a need for more District 75 seats?
  - Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?
