## CITYWIDE TRENDS

## CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 20I4-I5 TO 2023-24

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- Enrollment in D1-32 schools remained stable in 2023-2024 after declining by about $12 \%$ in the three school years since the onset of the COVID-19 pandemic.
- Overall, K-12 enrollment in District 1-32 schools and charter schools has declined by about 11\% since its peak in the 2016-2017 school year.

## DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor's Regulations A-185 and A-190.
- Chancellor's Regulation A-185 governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
- Chancellor's Regulation A-190 governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
- How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
- What other school changes could be considered?

## CHANGES IN DISTRICT - 202I-22 TO 2024-25

| Implementation <br> Year | Change <br> Type | Description | Impacted <br> DBN(s) | Impacted <br> Building(s) |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2022-23 | Expanded | Grade Reconfiguration of Success Academy Charter <br> School—Bed Stuy I (84K367) in Building K033 <br> DBN | Beginning in the 2022-2023 School Year | 84K367 | K033 |
|  | DB4 |  |  |  |  |

- During the 2022-2023 school year, a proposal was implemented to reconfigure the grades served by Success Academy Charter School - Bed Stuy 1 (84K367) in K033 from grades K-8 to grades K-12 at scale. The space allocated to the co-located school, P.S. K368 (75K368), was not impacted as a result of this grade reconfiguration.

## DISTRICT ENROLLMENT TRENDS

## UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
- What has happened to district enrollment over the last six years overall? By incoming grade (Kindergarten, $6^{\text {th }}$ grade, and $9^{\text {th }}$ grade)? Are there notable trends?
- Are students remaining in the district to attend school? If not, where are they going?

DISTRICT 14 K-5 AND 6-8 ENROLLMENT, 2018-19 TO 2023-24

Source: Audited Register; includes enrollment in district schools only

- Since the 2018-2019 school year, district elementary enrollment in District 14 has declined by $24 \%$.
- Since the 2018-2019 school year, district middle school enrollment in District 14 has declined by 20\%.
- These enrollment declines are higher than the enrollment declines seen at the borough level. Brooklyn elementary school enrollment decreased by $18 \%$, while Brooklyn middle school enrollment decreased by $14 \%$ over the past five years.

- Over the last five years, total enrollment in District 14 has declined by $14 \%$.
- Enrollment decline has been the most significant at the K-5 level, which experienced a fiveyear enrollment decline of $24 \%$.
- During the same time period, both pre-K and 6-8 enrollment has decreased by 20\%, while 9-12 enrollment experienced only a slight decline of $2 \%$.
- In the last year, the change in enrollment across all grade spans in District 14 experienced either minimal declines or an upward trend possibly indicating stabilization.

Residential population is presented here as the sum of students attending any NYCPS school, charter or non-public school; as such, this metric will not capture students who are home schooled, have dropped out, or are otherwise not enrolled in these school options.

- Over the past five years, the total K-12 residential population in District 14 has declined slightly by approximately $2 \%$.
- During this same time period, the number of elementary school-age children in District 14 experienced the highest decline across all grade levels at roughly $7 \%$, while middle school-age and high-school age residents saw a slight increase of approximately $4 \%$ and $3 \%$ respectively.
- In the last two years, total District 14 residents remained stable across all grade levels.
- While the number of elementary school-aged children in District 14 has experienced a slight decline in 2023-2024 school year, the total number of elementary school-age children remains significantly higher than middle and high school-aged children in District 14.

- Over the past five years, the number of elementary school-aged children in District 14 has declined by roughly $7 \%$.
- The share of District 14 elementary school residents enrolling in district schools in District 14 shrunk by 4 percentage points over the last five years.
- Non-public school remains a popular choice in District 14. More than half of District 14 elementary residents, roughly 67\%, enrolled in non-public schools for the 2023-2024 school year. This is up 5 percentage points since the 2018-2019 school year.
- The percentage of elementary school residents choosing to attend district schools outside of District 14 or charter schools has remained the same.

- Over the past five years, the number of middle school-aged children in District 14 has increased by $4 \%$.
- The share of District 14 middle school-aged residents enrolling in District 14 middle schools shrunk by 6 percentage points over the past five years.
- Enrollment patterns for 6-8 grade residents remained relatively stable with the exception of small changes in the percentage of District 14 residents attending District 14 schools and non-public schools.
- Similar to elementary school patterns, the majority of District 14 middle school residents enrolled in non-public schools ( $65 \%$ ), which shows an increase of 5 percentage points within the last five years.

- The primary driver of the decrease in ES and MS enrollment is a significant number of residents, at the rate of more than half, choosing to attend non-public schools.
- There has also been a decline in the amount of out of out-of-district ES and MS students attending District 14 schools.
- While charter school enrollment at the MS level has increased, the raw number remains a small share of residents.
- At both the ES and MS level, there has been a significant decline of students from other districts attending District 14 schools. This can also be attributed to the overall decline in residential population in the majority of districts across Brooklyn.

- The share of District 14 pre-K students enrolling in elementary schools in District 14 declined by 3 percentage points since 2019-2020 school year.
- The percentage of pre-K students leaving NYC or enrolling in non-district school options for kindergarten has stayed relatively stable over the last three years.
- While the percentage of pre-K students articulating to other options for Kindergarten is up 5 percentage points, the actual number change is not that significant.

- In District 14, 12 out of 17 schools that serve elementary school grades are in the bottom $25 \%$ of enrollment citywide.
- There are several District 14 elementary schools that have seen significant enrollment decline over the last five years, one potential driver here is overall K-5 residential decline.
- More District 14 elementary schools are experiencing enrollment decline compared to their middle schools.
- In District 14, 3 out of 10 schools that serve middle school grades in the bottom $25 \%$ of enrollment citywide and all three of those schools have seen significant enrollment declines over the last five years.

## HIGH DEMAND SCHOOLS IN DISTRICT 14

- The tables below include the highest demand schools at kindergarten and $6{ }^{\text {th }}$ grade in the district based on applications.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

Source: Fall 2024 admissions data

- At the elementary school level, the most in-demand options include five zoned elementary schools.
- High demand options for elementary school include Brooklyn Arbor Elementary School and P.S. 84 which offer early childhood, as well as Dual Language and Gifted and Talented programming.
- At the middle school level, the most in-demand options include five non-zoned middle schools.
- For middle school, the most in-demand options such as J.H.S. 50 John D. Wells and P.S. 84 Jose De Diego offer Dual Language programming, and, notably, I.S. 318 Eugenio Maria De Hostos increased the number of $6^{\text {th }}$ grade applications by 70 .
- I.S. 318 Eugenio Maria De Hostos is the only middle school where the number of applications received exceeded the available number of seats.

## ENROLLMENT VS. CAPACITY

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.

## DISTRICT I4 ENROLLMENT VS. CAPACITY

|  | Seats | Enrollment | Excess / <br> (Deficit) |
| :---: | :---: | :---: | :---: |
| ES | 8,066 | 5,536 | 2,530 |
|  | 4,991 | 2,880 | 2,111 |
|  | 8,813 | 5,894 | 2,919 |

Source: Capacity estimates are based on 2022-2023 Blue Book with adjustments for schools with capacity spanning multiple grade levels (e.g. K-8 or 6-I 2 schools); enrollment is based on 2023-24 Audited Register. Excludes charter enrollment and capacity.

- District 14 is expected to continue to have excess capacity at all grade levels over the next several years.
- Currently, there are roughly 2,500 excess seats at the elementary school level, 2,100 excess seats at the middle school level and 2,900 excess seats at the high school level.

## BUILDINGS \& CAPACITY

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
- Given the current enrollment and capacity, does the district have sufficient capacity to meet its needs and support its students?
- Is over- or under-utilization concentrated at a particular grade level? In a particular area?
- Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

Source: Building information from LCGMS. Building utilization categories based on the 2022-2023 Blue Book.

- There are 19 under-utilized buildings in District 14 . The majority of under-utilized buildings are those that house elementary school grades.
- There are 5 buildings over $100 \%$ utilization in District 14.

## UNDER-UTILIZATION IN DISTRICT I4

Under-utilized Buildings in District I4 with 300+ Excess Seats

Source: Graph shows enrollment and capacity from 2022-2023 Blue Book; UU status is from the preliminary 2023-2024 UU analysis, and accounts for building enrollment and planning changes implemented in 2023-2024 and after.

- Utilization rates do not always capture the full narrative of space in a building, but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- Building K450 is a high school campus with 1,667 excess seats, the most excess space of any building in District 14.

## OVER-UTILIZATION IN DISTRICT I4

Buildings Over 100\% Utilization in District 14

Source: 2022-2023 Blue Book

- There are two buildings in District 14 operating at over $120 \%$ utilization.
- Building K319 is a small building with a capacity of 58 seats and is identified as an Early Childhood Center serving grades 3K-1.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.

## DISTRICT 75

- NYCPS's District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
- Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
- A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
- Does the district have a need for more District 75 seats?
- Are there potential options for new District 75 sites to provide opportunities for students to attend programs closer to their homes?

## District 14 District 75 Special Class Enrollment by Year

## District 75 Special Class Enrollment

- There is no deficit of District 75 school seats at any grade level in District 14.
- The number of students in District 14 who need a District 75 seat has increased slightly at the elementary and high school levels and decreased at the middle school level.

## DEMOGRAPHICS \& STUDENT POPULATION

## STUDENTS SERVED IN THE DISTRICT

- Demographic data helps us understand the landscape of a district and the different communities served.
- Guiding Questions:
- How do the demographics of the district compare to the borough? To the City?
- Are there any notable trends in the district's demographics?
- How do the demographics of individual schools compare with other schools in the district?

## RACE/ETHNICITY

Source: 2023-2024 Audited Register; includes both district and charter schools

- District 14 elementary and middle schools serve a larger percentage of students identifying as Hispanic and a smaller percentage of students identifying as Asian compared to borough and citywide averages.
- District 14 has many schools that serve one racial majority
- Many District 14 schools do not have a demographic makeup that resembles the district on average.

## SPECIAL PROGRAMS

- Understanding the landscape of special programming helps identify potential district needs.
- Guiding Questions:
- For all programs, are sites geographically dispersed/accessible?
- Are ASD Nest and/or Horizon programs available in the district? What grade levels do they serve?
- Does the availability of Dual Language (DL) and Transitional Bilingual Education (TBE) programs align with ELL needs in the district?

|  | District | Brooklyn |
| ---: | :---: | :---: |
| Schools with ASD Programs | 3 | 41 |
| Horizon | 0 | 16 |
| Nest | 3 | 25 |
| Schools with G\&T Programs | 2 | 45 |
| Schools with Bilingual Ed Programs | 17 | 117 |
| $D L$ | 9 | 78 |
| $T B E$ | 2 | 9 |
| $D L / T B E$ | 6 | 30 |

- District 14 has 3 schools with ASD programs, 2 schools with G\&T programs, and 17 schools with Bilingual Education programs.
- Additionally, NYCPS offers the following specialized programs in District 14 for students with disabilities:
- 4 Academics, Career, and Essential Skills (ACES) programs
- 4 Bilingual Special Education (BSE) programs
- 1 Intensive Reading Education and Development (I READ) Early Literacy Program
- District 14 is participating in a citywide pilot expanding specialized autism programs for the 2024-2025 school year. In this district, the expansion aims to provide a specialized autism program seat for all eligible students in their district, close to home. These additional classes are not captured in the table above.
