## CITYWIDE TRENDS

## CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 20I3-I4 TO 2022-23

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about $12 \%$ since its peak in the 2016-2017 school year, exacerbated by population changes during the COVID-19 pandemic.

## DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor's Regulations A-185 and A-190.
- Chancellor's Regulation A-185 governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
- Chancellor's Regulation A-190 governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
- How might recent changes affect the needs of the district as they are implemented? Do they address key needs and priorities?
- What other school changes could be considered?

## CHANGES IN DISTRICT - 2020-2I TO 2023-24

| Implementation <br> Year | Change Type | Description | Impacted <br> DBN(s) | Impacted <br> Building(s) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $2022-23$ | Expanded DBN | Grade Reconfiguration of Success Academy Charter <br> School—Bed Stuy 1 (84K367) in Building K033 Beginning <br> in the 2022-2023 School Year | $84 K 367$ | K033 |

- A proposal was approved during the 2021-2022 school year to reconfigure the grades served by Success Academy Charter School - Bed Stuy 1 (84K367) in K033 from grades K through 8 to grades K through 12 at scale. The space allocated to Success Academy Bed - Suy 1 or the co-located school P.S. K368 (75K368) was not impacted as a result of this grade reconfiguration.

## DISTRICT ENROLLMENT

## UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
- What has happened to district enrollment over the last six years overall? By incoming grade (i.e. K and sixth)? Are there notable trends?
- Are students remaining in the district to attend school? If not, where are they going?

- Over the last five years, total enrollment in District 14 decreased by $13 \%$.
- In the last year, total enrollment in District 14 decreased by $3 \%$.
- Since the 2017-2018 school year enrollment decreased across all grade levels, with an approximately $22 \%$ decline in pre-K and elementary school enrollment, an approximately $18 \%$ decline in middle school enrollment, and a 6\% decline in high school enrollment.

## DISTRICT SCHOOL ENROLLMENT

Source: Audited Register; includes enrollment in district schools only

- Since the 2019-2020 school year, district elementary school enrollment in District 14 declined by around $20 \%$.
- Since the 2019-2020 school year, district middle school enrollment in District 14 declined by almost 17\%.

- Over the past five years, the number of elementary school-aged children in District 14 has declined by 9\%.
- Enrollment patterns remained relatively stable except for small changes in the percentage of District 14 residents attending District 14 schools and non-public schools.
- Approximately $67 \%$ of District 14 students attended a non-public school in the 2022-2023 school year. An increase from that 62\% in the 2017-2018 school year.

- Over the past five years, the number of middle school-aged children in District 14 remained stable, increasing by almost $3 \%$.
- Similar to the Elementary level, Enrollment patterns for 6-8th grade residents remained relatively stable with the exception of small changes in the percentage of District 14 residents attending District 14 schools and non-public schools.
- District 14 has the lowest elementary school retention rate, and the second lowest middle school retention rate in Brooklyn.

- P.S./I.S. 157 The Benjamin Franklin Health \& Science Academy saw the largest elementary school enrollment decrease, with a $50 \%$ decline since the 2017-2018 school year. P.S.II.S. 157's zone size decreased from 51 students in the 2017-2018 school year to 29 students in the 2022-2023 school year.
- There are only two District 14 schools serving middle school grades with enrollment in the bottom $25 \%$ citywide.

## HIGH DEMAND SCHOOLS IN DISTRICT 14

- The tables below include the highest demand schools at kindergarten and $6^{\text {th }}$ grade in the district based on applications and applications compared to seats.

- At the elementary school level, Brooklyn Arbor Elementary School and P.S. 110 The Monitor both offer early childhood and Dual Language programming.

## SEAT DEMAND

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.
- Guiding Questions:
- Are there certain parts of the district with significant excess space? Areas of crowding or over-utilization?
- How does projected enrollment compare to capacity and how do we expect that to change over time?
- Do projections align with current, on-the-ground experience?

## DISTRICT I4 ENROLLMENT

District I4 Enrollment - 2017-I8 to 2023-24

* Enrollment for 2017-18 through 2022-23 is based on Audited Register; enrollment for 2023-24 is based on NYCPS register estimates.

- District 14 is expected to continue to have excess elementary and middle seat capacity over the next several years.
- Currently, there are roughly 2,395 excess seats at the elementary school level and roughly 2,184 excess seats at the middle school level.
- District 14 has a funded need of 920 seats in the Williamsburg/Greenpoint sub-district, of which no seats are yet to be completed or in process.

## BUILDINGS \& CAPACITY

## SCHOOL \& BUILDING UTILIZATION WITHIN THE DISTRICT

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
- Given the current and projected capacity trends presented in the preceding Demand and Capacity section, does the district have sufficient capacity to meet its needs and support its students?
- Is over- or under-utilization concentrated at a particular grade level? In a particular area?
- Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

Source: Building information from LCGMS. Building utilization categories based on the 202 I-2022 Blue Book.

- There are 18 under-utilized buildings in District 14.
- There are 5 buildings over 100\% utilization in District 14.

## DISTRICT 14 UNDER-UTILIZED BUILDINGS

Under-utilized Buildings in District I4 with 300+ Excess Seats

Source: Graph shows enrollment and capacity from 202I-2022 Blue Book; UU status is from the 2022-2023 UU Memo, and accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- Utilization rates do not always capture the full narrative of space in a building but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- Building K450 is a high school campus with 1,667 excess seats, the most excess space of any building in District 14.

## DISTRICT I4 BUILDINGS OVER I00\% UTILIZATION

Source: 202I-2022 Blue Book

- There is one building in District 14 operating at over $120 \%$ utilization.
- Building K319 is a small building with a capacity of 58 seats. The building houses P.S. 319, an elementary school serving pre-K-1 ${ }^{\text {st }}$ grade.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.

## DISTRICT 75

- NYCPS's District 75 provides highly specialized instructional support for students with significant challenges, such as ASD, significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
- Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
- A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
- Does the district have a need for more District 75 seats?
- Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?

## District I4 D75 Special Class Enrollment by Year

- There is no deficit of District 75 school seats at any grade level in District 14.
- The number of students in District 14 who need a District 75 seat slightly increased at the elementary and middle school levels and slightly decreased at the high school level.

## DEMOGRAPHICS \& STUDENT POPULATION

## STUDENTS SERVED IN THE DISTRICT

- Demographic data helps us understand the landscape of a district and the different communities served.
- Guiding Questions:
- How do the demographics of the district compare to the borough? To the City?
- Are there any notable trends in the district's demographics?
- How the demographics of individual schools compare with other schools in the district?
