## CITYWIDE TRENDS

## CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 20I4-I5 TO 2023-24

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

- Enrollment in D1-32 schools remained stable in 2023-2024 after declining by about $12 \%$ in the three school years since the onset of the COVID-19 pandemic.
- Overall, K-12 enrollment in District 1-32 schools and charter schools has declined by about 11\% since its peak in the 2016-2017 school year.

## DISTRICT PLANNING PROCESS

- The Office of District Planning partners with communities, superintendents, and other stakeholders to identify solutions that address district needs, in accordance with Chancellor's Regulations A-185 and A-190.
- Chancellor's Regulation A-185 governs the process to re-zone or unzone schools in partnership with and voted on by Community Education Councils (CECs).
- Chancellor's Regulation A-190 governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).

## DISTRICT ENROLLMENT TRENDS

## UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, generate hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
- What has happened to district enrollment over the last six years overall? By incoming grade (Kindergarten, $6^{\text {th }}$ grade, and $9^{\text {th }}$ grade)? Are there notable trends?
- Are students remaining in the district to attend school? If not, where are they going?

Residential population is presented here as the sum of students attending any NYCPS school, charter or non-public school; as such, this metric will not capture students who are home schooled, have dropped out, or are otherwise not enrolled in these school options.

- Since the 2018-2019 school year, total residential population In District 32 has declined by $11 \%$.
- Elementary school-aged resident population has seen the most significant decline with a $17 \%$ decrease over the past five years.
- Middle and high school-aged residents declined by $10 \%$ and $3 \%$ respectively over the same period.
- These decreases in residential populations potentially contributed to the decrease in District 32 enrollment over the past five years.

- In District 32, there are four schools serving elementary grades with enrollments in the bottom $25 \%$ citywide. Three out of these four schools have experienced enrollment declines, while P.S. 377 seems to have increased their enrollment in the last five years.
- The K zone sizes for some of these schools appear to be relatively low.
- There are two middle schools with enrollments in the bottom $25 \%$ citywide. Both schools have experienced enrollment declines.

## HIGH DEMAND SCHOOLS IN DISTRICT 32

- The tables below include the highest demand schools at kindergarten and $6^{\text {th }}$ grade in the district based on applications and applications compared to seats.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

- The most in-demand elementary schools include five zoned elementary schools. One of the high demand schools, P.S. 376, offers a Gifted and Talented program.
- At the middle school level, the most in-demand options are five non-zoned schools serving middle school grades and offer Dual Language and screened options.

## ENROLLMENT VS. CAPACITY

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.

## DISTRICT 32 ENROLLMENT VS. CAPACITY

|  | Seats | Enrollment | Excess / (Deficit) |
| :---: | :---: | :---: | :---: |
|  | 6,727 | 3,852 | 2,875 |
| MS | 5,305 | 2,604 | 2,701 |
| HS | 3,496 | 2,488 | 1,008 |
|  |  |  |  |

Source: Capacity estimates are based on 2022-2023 Blue Book with adjustments for schools with capacity spanning multiple grade levels (e.g. K-8 or 6-I 2 schools); enrollment is based on 2023-24 Audited Register. Excludes charter enrollment and capacity.

- District 32 is expected to continue to have significant excess at all grade levels in the next several years.
- Currently, there are roughly 3,000 excess seats at the elementary school level, 2,700 excess seats at the middle school level and 1,000 excess seats at the high school level.

## BUILDINGS \& CAPACITY

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
- Given the current enrollment and capacity, does the district have sufficient capacity to meet its needs and support its students?
- Is over- or under-utilization concentrated at a particular grade level? In a particular area?
- Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

Source: Building information from LCGMS. Building utilization categories based on the 2022-2023 Blue Book.

- There are 16 under-utilized buildings in District 32 and the majority of them servs elementary school grades.
- There is 1 building over $100 \%$ utilization in District 32 .

## UNDER-UTILIZATION IN DISTRICT 32

Under-utilized Buildings in District 32 with 300+ Excess Seats

Source: Graph shows enrollment and capacity from 2022-2023 Blue Book; UU status is from a preliminary 2023-2024 UU analysis, and accounts for building enrollment and planning changes implemented in 2023-2024 and after.

- Utilization rates do not always capture the full narrative of space in a building, but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add another school.
- Other buildings with significant excess seats could be candidates to address pressing district needs, including housing another school or adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) programs, Gifted and Talented, and/or other district needs.
- K291 has 982 excess seats, the most excess space of any school serving middle and high school grades in Brooklyn.

## OVER-UTILIZATION IN DISTRICT 32

Source: 2022-2023 Blue Book

- Over-utilization is not a significant concern in District 32. There is only 1 building in District 32 operating at over $100 \%$ utilization.
- The Office of District Planning seeks to work with superintendents, CECs, and partner offices to alleviate overcrowding through the leveraging of available capacity.

## DISTRICT 75

- NYCPS's District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
- Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools.
- A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
- Does the district have a need for more District 75 seats?
- Are there potential options for new District 75 sites to provide opportunities for students to attend programs closer to their homes?

## District 32 District 75 Special Class Enrollment by Year

- There is a deficit of District 75 school seats in District 32 across all grade spans.
- District 75 seat deficits are as follows: 46 seats in elementary school, 17 seats in middle school and 81 seats in high school.
- The number of students in District 32 who need a District 75 seat has increased slightly at elementary school level and is holding stable at the middle and high school level.

## DEMOGRAPHICS \& STUDENT POPULATION

## STUDENTS SERVED IN THE DISTRICT

- Demographic data helps us understand the landscape of a district and the different communities served.
- Guiding Questions:
- How do the demographics of the district compare to the borough? To the City?
- Are there any notable trends in the district's demographics?
- How do the demographics of individual schools compare with other schools in the district?

## RACE/ETHNICITY

Source: 2023-2024 Audited Register; includes both district and charter schools

- District 32 serves a very high percentage of Hispanic students at the elementary and middle school level than Brooklyn and citywide averages.
- District 32 serves a low percentage of White students at elementary and middle school level than Brooklyn and citywide averages.
- Many schools serving elementary or middle school grades have a demographic makeup that does not resemble the district.
- There are many schools in District 32 that serves one racial majority.

## SPECIAL PROGRAMS

- Understanding the landscape of special programming helps identify potential district needs.
- Guiding Questions:
- For all programs, are sites geographically dispersed/accessible?
- Are ASD Nest and/or Horizon programs available in the district? What grade levels do they serve?
- Does the availability of Dual Language (DL) and Transitional Bilingual Education (TBE) programs align with ELL needs in the district?

| $D L$ | 18 | 78 |
| $T B E$ | 1 | 9 |
| $D L / T B E$ | 4 | 30 |

- District 32 has 2 ASD programs, 3 G\&T programs, and 23 Bilingual Education programs.
- Additionally, NYCPS offers the following specialized programs in District 32 for students with disabilities:
- 1 Academics, Career, and Essential Skills (ACES) program
- 4 Bilingual Special Education (BSE) programs

Note: The map above reflects district and charter school sites for the 2023-2024 school year. Please see page 3 for a list of any changes to schools that may affect school sites for the 2024-2025 school year.
