## CITYWIDE TRENDS

- New York City’s population declined in 2021, continuing recent population trends and exacerbated by the COVID-19 pandemic.
- NYC’s public school enrollment experienced a parallel dip in the last two years.
- As the city continues to recover from the COVID-19 pandemic, the DOE remains committed to thoughtful collaboration with districts and communities to collectively strengthen schools and support students and families.

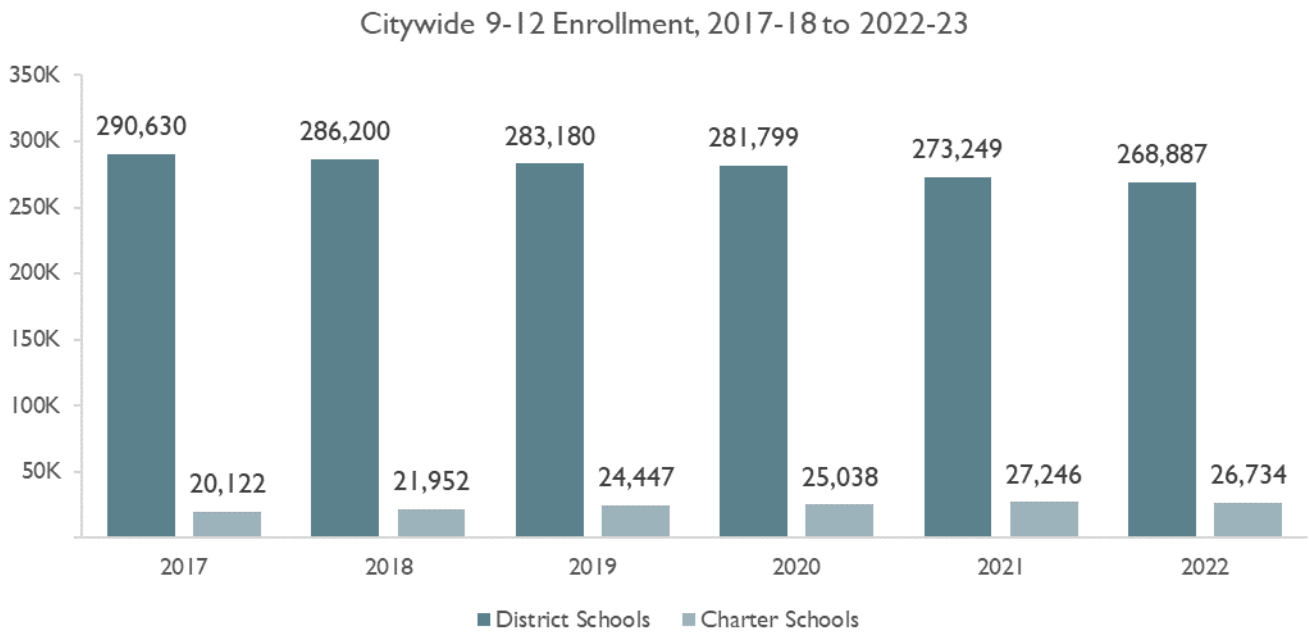

### CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- K-12 enrollment in District 1-32 schools and charter schools has declined by about 10% since its peak in the 2016-2017 school year.

**CITYWIDE 9-12 ENROLLMENT (DISTRICT AND CHARTER), 2016-17 TO 2021-22**

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- Although K-12 school enrollment in District 1-32 and charter schools has declined by about 11% since the 2017-2018 school year, high school enrollment has declined by 6% during this time.

## DISTRICT PLANNING PROCESS

### RECENT SCHOOL CHANGES

- The Office of District Planning partners with superintendents and communities to address district needs in accordance with Chancellor's Regulation A-190.
  - **Chancellor's Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
  - How might recent changes affect district/borough needs as they are implemented? Do they address key needs and priorities?
  - What other school changes should be considered?

### CHANGES IN MANHATTAN – 2021-22 TO 2023-24

Implementation Year	Change Type	Description	Impacted DBN(s)	Impacted Building(s)

2020-21	Merger	Re-siting and merger of Marta Valle High School with University Neighborhood High School in Building M446	01M509, 01M448	M025, M446

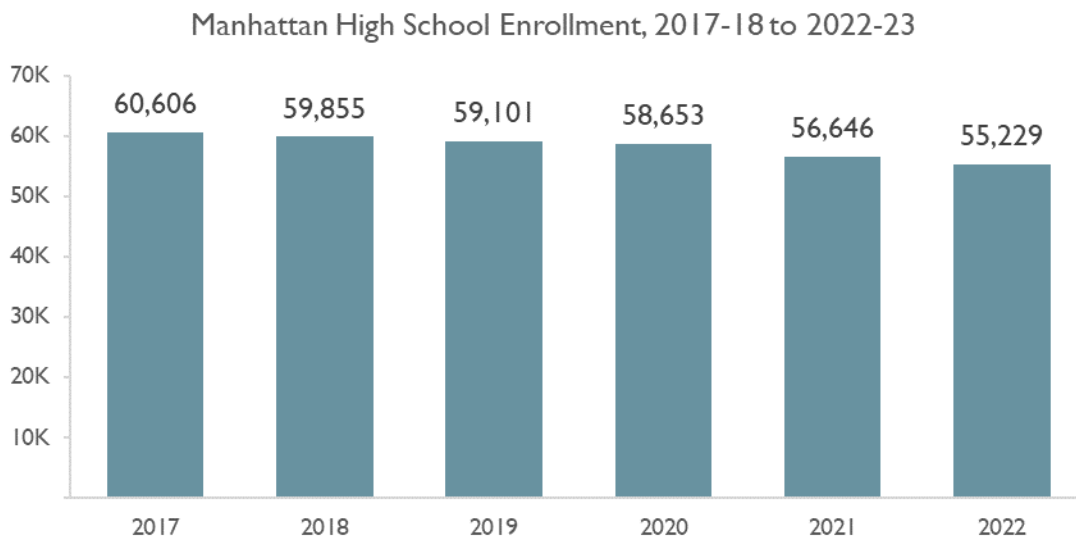

- New district school, School Without Walls, was open and co-located with Leadership and Public Service High School in M894 beginning in the 2023-2024 school year.
- New secondary District 75 site was opened and co-located with M.S. 322 and City College Academy in building M218 for the 2023-2024 school year.
- The Young Women’s Leadership School was re-sited from building M895 to building M506 for the 2023-2024 school year.
- Edward A. Reynolds West Side High School was re-sited from M506 to M895 for the 2023-2024 school year.
- Park East High School was temporarily partially re-sited from building M495 to M522 for the 2021-2022 school year so it could implement the physical distancing recommended during COVID-19 by the Centers for Disease Control and Prevention and New York State Education Department
- The temporary co-location of the high school grades of East Harlem Scholars Academy in building M645 was extended through the 2021-2022 school year.
- A new site of existing multi-sited District 75 school P.S. M811 was opened and co-located with Frederick Douglass Academy (FDA) in building M010 in the 2021-2022 school year.
- Success Academy – Harlem 2 temporarily reconfigured the grades it serves in building M043 from a middle school to a high school for three years beginning in the 2021-2022 school year.

**ENROLLMENT**

**UNPACKING ENROLLMENT TRENDS**

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, make hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
  - What has happened to borough enrollment over the last six years overall? Are there notable trends?
  - Are students remaining in the borough to attend school? If not, where are they going?
  - Are students residing in other boroughs enrolling in large numbers?

**MANHATTAN ENROLLMENT, 2017-18 TO 2022-23**

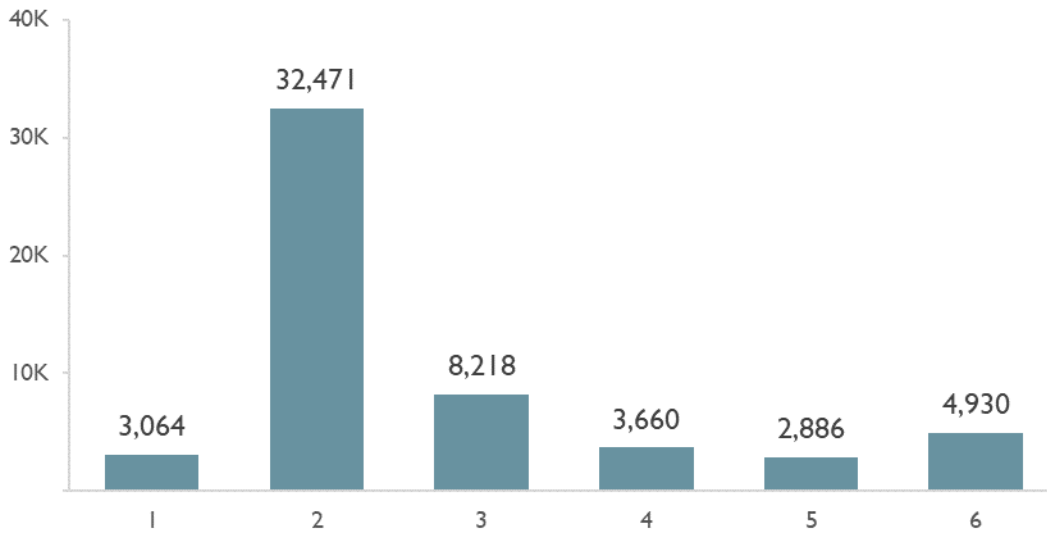

*Source: Audited Register; includes district 1-32 schools only*

- Over the past five school years, enrollment in district high schools in Manhattan has decreased by approximately 9%, or 5,377 students.

**MANHATTAN ENROLLMENT BY DISTRICT**

Source: Audited Register; includes district 1-32 schools only

- Over the last five years, high school enrollment in district schools has decreased by approximately 8% in Districts 1-3, 22% in District 5, and 10% in District 6.
- Enrollment in District 4 high schools increased by 4% over the last year and remained relatively stable over the last five years.

## DISTRICT AND CHARTER ENROLLMENT

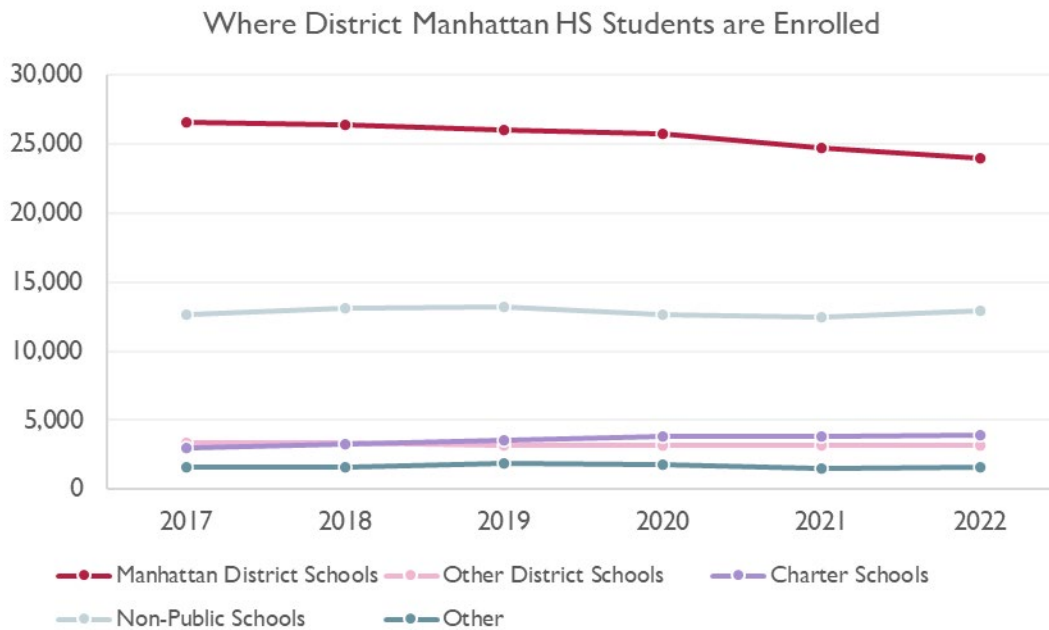

Source: 2022-2023 Audited Register and Charter Headcount

- District 4 has the greatest number of students enrolled in charter high schools in Manhattan (1,790).
- The largest percentage of students enrolled in charter high schools are in Districts 4 (33%) and 5 (35%).

- Since the 2017-2018 school year, the number of Manhattan 9-12 residents decreased by approximately 4%.
- Since the 2017-2018 school year, a slightly smaller share of high students living in Manhattan are enrolling in Manhattan district schools and a slightly larger share of students are enrolling in charter schools.
- In the 2022-2023 school year, the greatest share of Manhattan 9-12 residents attended district schools within the district (53%), followed by non-public schools (28%).

## HOW BOROUGH RETENTION COMPARES TO OTHER DISTRICTS & BOROUGHS

### Borough Retention - By Borough

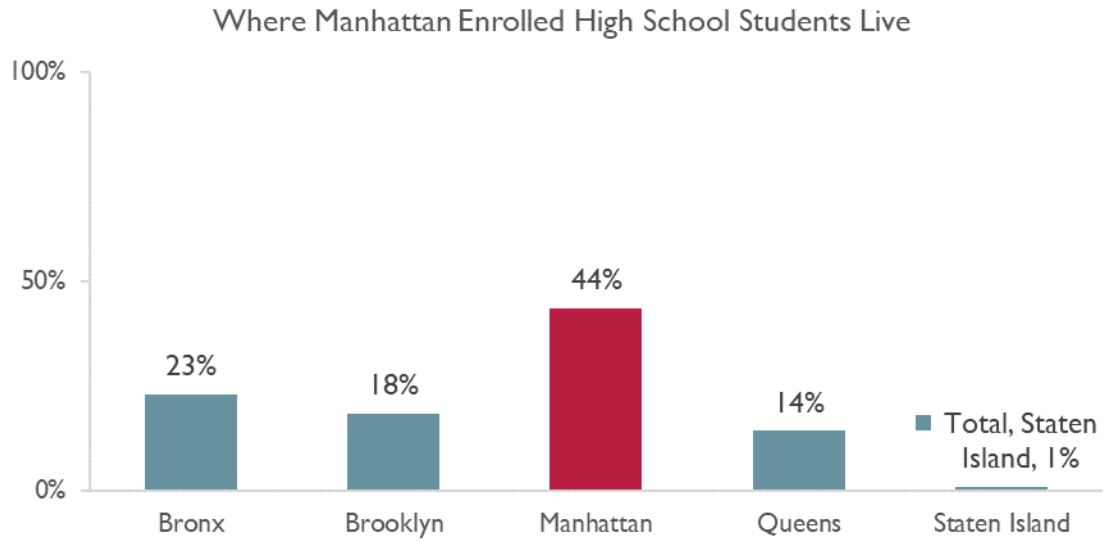

### Borough Retention - By Borough

Source: Audited Register; percentage includes only students attending D1-32 schools.

- In Manhattan, Districts 1 and 6 have the highest percentage of residents staying in Manhattan for high school. In the 2022-2023 school year, the greatest share of Manhattan 9-12 residents attended district schools within the district (53%), followed by non-public schools (28%).
- Manhattan has the lowest percentage of students in the city attending district high schools in their borough of residence.

## WHERE MANHATTAN ENROLLED HIGH SCHOOL STUDENTS LIVE

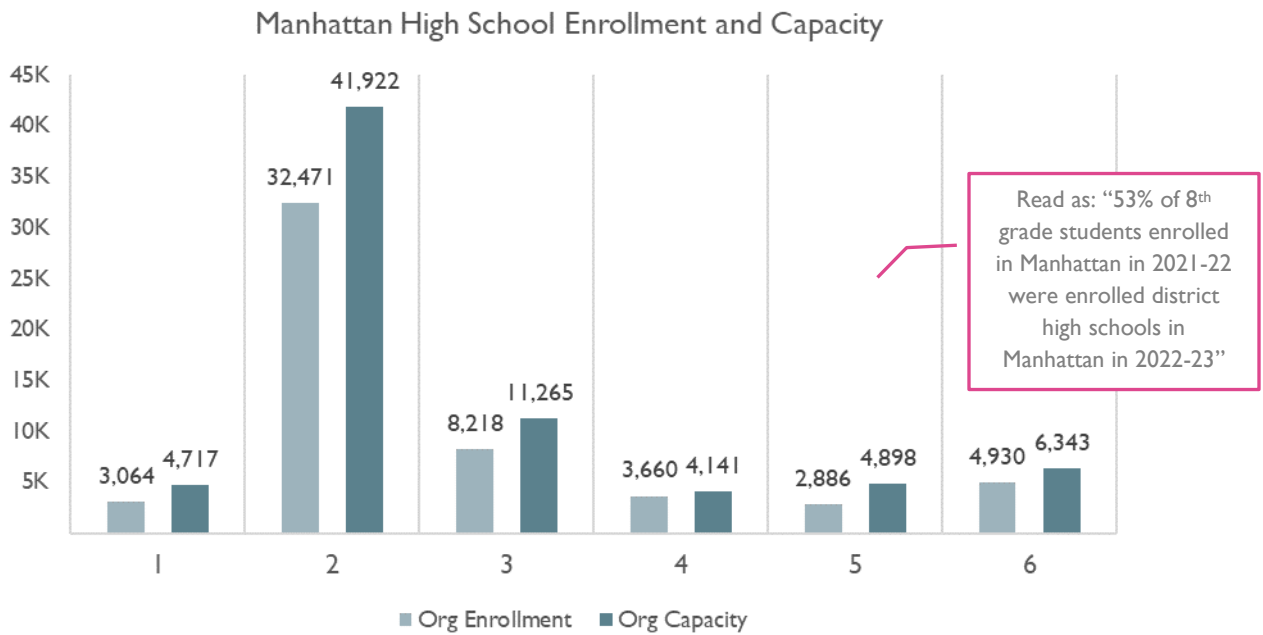

Source: 2022-2023 Audited Register

- 44% of students enrolled in a high school in Manhattan reside in Manhattan, while 23% reside in the Bronx, 18% in Brooklyn, 14% in Queens, and 1% reside in Staten Island.

\* For PK-to-K articulation, "Other" includes students discharged to Non-Public Schools and out of NYC.

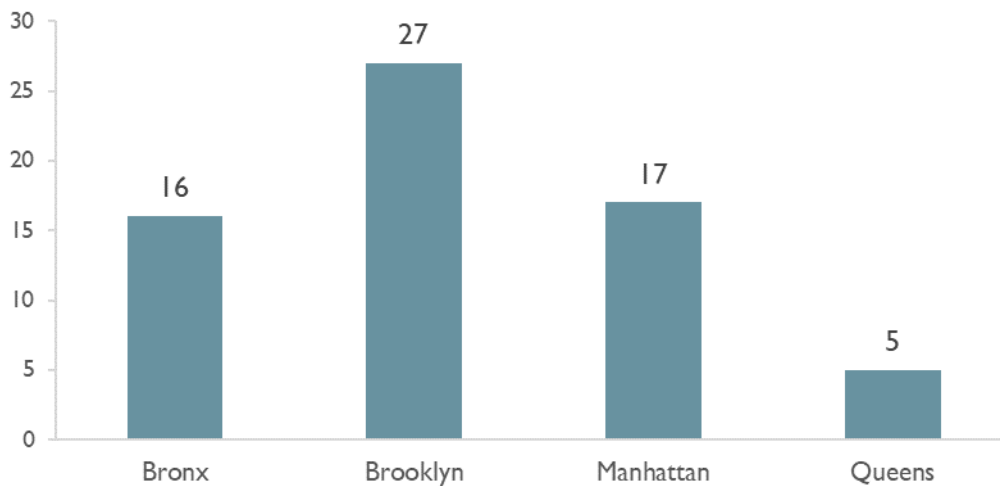

- In the 2022-2023 school year, about 53% of students enrolled in a Manhattan district school for 8<sup>th</sup> grade continued to attend district high schools in Manhattan for 9<sup>th</sup> grade.
  - While some families chose other options between 8<sup>th</sup> and 9<sup>th</sup> grade, such as district high schools in other boroughs, charter schools, or non-public schools, family choices remained relatively similar over the past five years.

### HIGH SCHOOLS BY ENROLLMENT RANGE

- The table below shows the number of district/non-charter schools in the district by 2022-2023 K-12 enrollment range.

- The table above shows schools serving high school grades in Manhattan in the bottom 25% of enrollment Citywide.
- While some of these schools, such as The American Sign Language Secondary School, are specialty schools which may be designed to enroll a relatively smaller number of students, others have experienced a significant enrollment decline over the last five years, suggesting potential sustainability issues.

## HIGH DEMAND HIGH SCHOOLS IN MANHATTAN

- The table below includes the highest demand schools at the 9<sup>th</sup> grade in the borough based on applications and applications compared to seats.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the district through the planning process.

- The table above shows schools with the greatest number of Fall 2023 applicants for 9<sup>th</sup> grade in Manhattan.
- Beacon, Eleanor Roosevelt, Baruch, Millenium, and Manhattan / Hunter Science had the greatest number of Fall 2023 applicants for 9<sup>th</sup> grade in Manhattan.

## MANHATTAN HIGH SCHOOL CAPACITY BY DISTRICT

### High School Seat Need – Graph

### High School Seat Need – Table

5	4,898	2,886	2,012
6	6,343	4,930	1,413

Source: Capacity estimates are based on 2021-2022 Blue Book with adjustments for schools with capacity spanning multiple grade levels (e.g. K-8 or 6-12 schools); enrollment is based on 2022-23 Audited Register. Excludes charter enrollment and capacity.

- The high school enrollment and capacity chart above is a helpful way to think about borough-wide seat availability compared to actual enrollment.
- There is an excess of high school seats in all districts, particularly in District 2.

## BUILDINGS & CAPACITY

### SCHOOL & BUILDING UTILIZATION

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Planning to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each DOE building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
  - Is over- or under-utilization concentrated in certain districts or particular areas?
  - Are there overcrowded buildings that need to be alleviated? What is enrollment like for schools in these buildings?
  - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

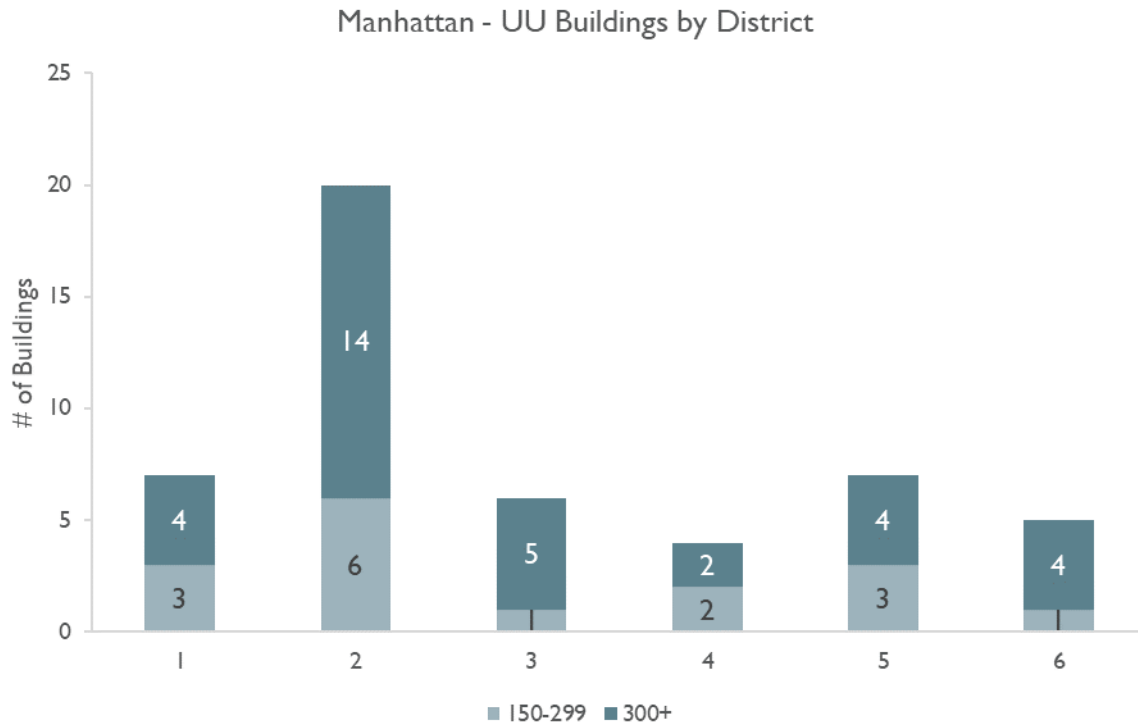

### BUILDING SUMMARY

	Manhattan
<b>Count of Buildings</b>	<b>99</b>
<b>Under-Utilized Buildings</b>	<b>49</b>
150-299	16
300+	33
<b>Over-Utilized Buildings</b>	<b>12</b>

TCUs with Plan for Removal	0
Remaining TCUs	15

Source: Building information from LCGMS. Building utilization categories based on the 2021-22 Blue Book and the 2022-23 Under-Utilization Memo

- There are 99 buildings in Manhattan serving high school students.
- 49 DOE buildings with high school students are under-utilized, meaning there is an excess of seats in these buildings.
  - The Office of District Planning works collaboratively with communities to identify how to optimize excess space in buildings, including adding programming where demand aligns to space.
- 12 buildings with high school students are over-utilized, which suggests there may be crowding and/or space challenges at those schools.

## MANHATTAN UNDER-UTILIZED BUILDINGS

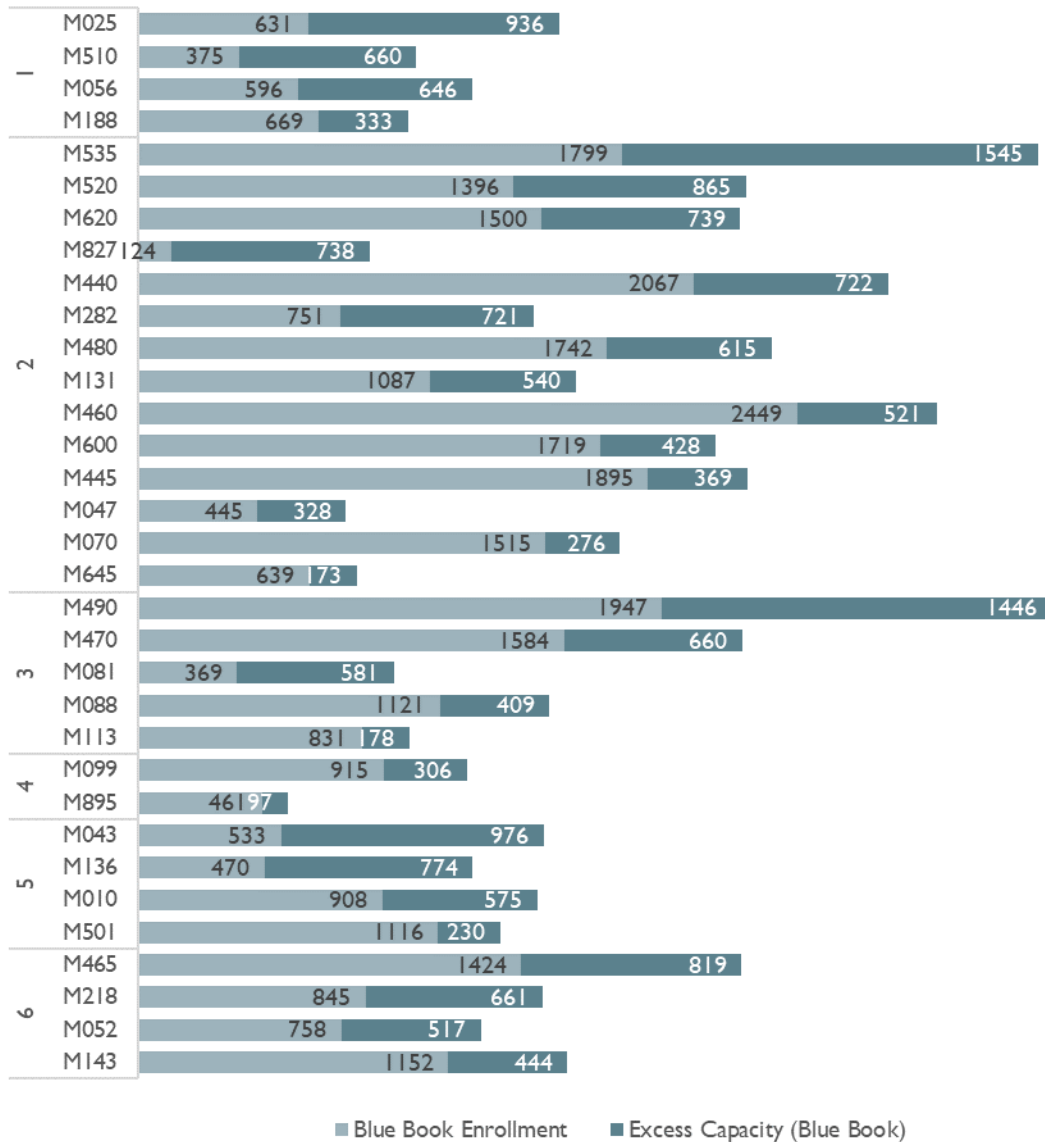

Source: Graph shows schools estimated as under-utilized in 2022-2023 UU Memo; accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- District 2 has the greatest number of under-utilized buildings in the borough.
  - District 2 has 20 under-utilized buildings, approximately 40% of the under-utilized buildings in Manhattan.

**BUILDINGS WITH 300+ EXCESS SEATS**

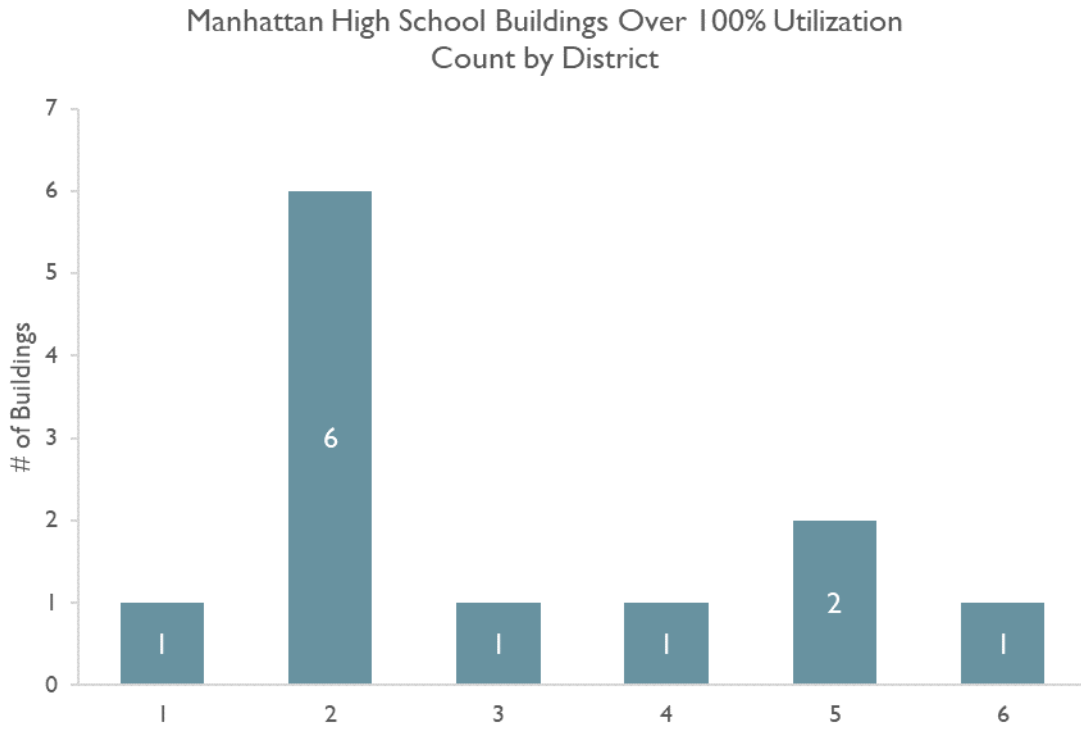

Manhattan - Buildings with 300+ Excess Seats

Source: Graph shows enrollment and capacity from 2021-2022 Blue Book; UU status is from the 2022-2023 UU Memo, and accounts for 2022-2023 building enrollment and planning changes implemented in 2022-2023 and after.

- Utilization rates do not always capture the full narrative of space in a building but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add new schools or programming. Some of these buildings are large high school campuses with multiple co-located orgs.
- Other buildings have significant excess seats and rooms.
- These could be candidates to address pressing district needs, including adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) Nest and Horizon programs, and/or other district needs where demand aligns.

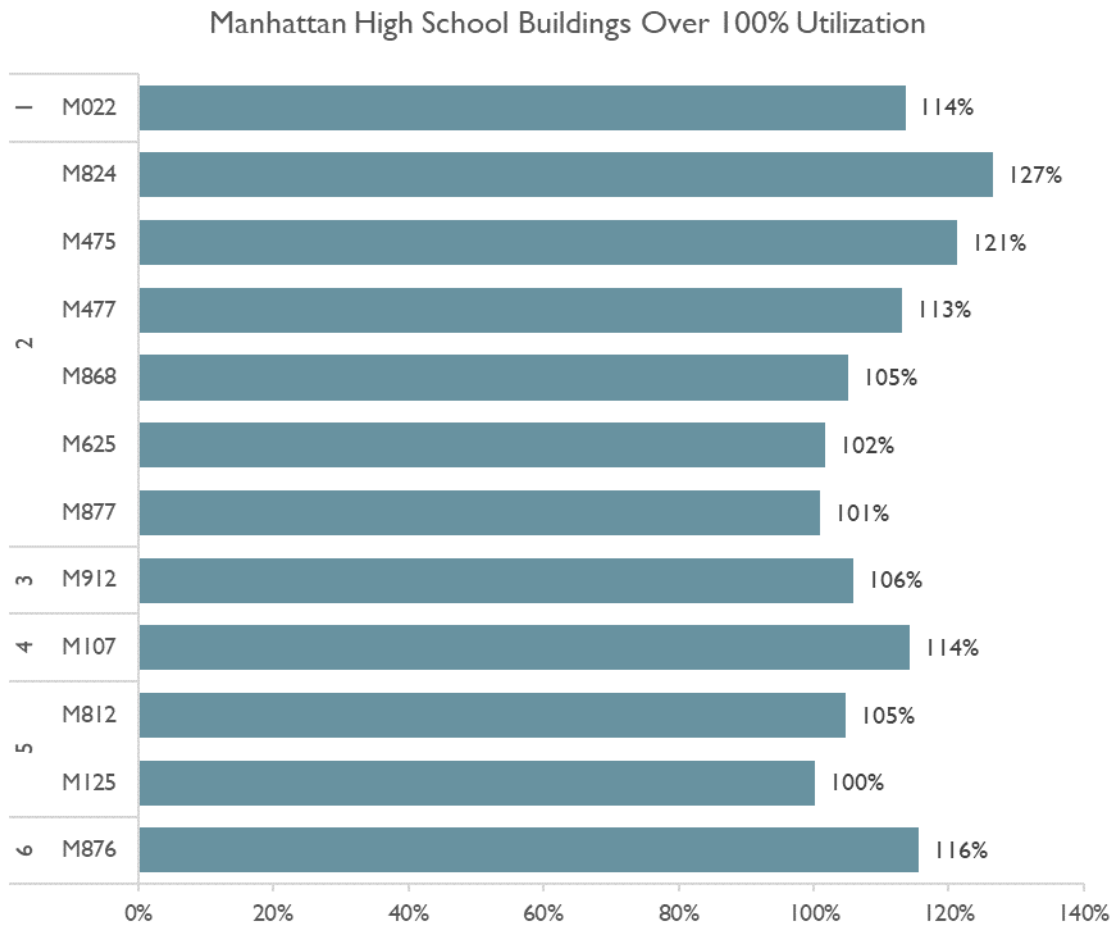

### MANHATTAN HIGH SCHOOL BUILDINGS OVER 100% UTILIZATION

Source: 2021-2022 Blue Book

- 12 DOE buildings serving high school students in Manhattan have utilization rates over 100%.
- Schools in these buildings may experience high demand, and therefore may be programming creatively to accommodate students.

### Manhattan High School Buildings Over 100% Utilization

Source: 2021-2022 Blue Book

- The Office of District Planning seeks to work with superintendents, CECs/CCHS, and partner offices to alleviate overcrowding.

**TRANSPORTABLE CLASSROOM UNITS (TCUS)**

- The Equity Project Charter School (84M430) currently serves grades 2-4 in 15 TCUs on the George Washington High School Education Campus (M465).

## DISTRICT 75 SEAT NEED

### District 75

- NYCDOE’s District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
  - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools
  - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
  - Does the district have a need for more District 75 seats?
  - Are there potential options for new D75 sites to provide opportunities for students to attend programs closer to their homes?

### DISTRICT 75 SEAT NEED BY DISTRICT

**MANHATTAN DISTRICT 75 HS SEAT NEED**

	Borough	City
<b>Capacity</b>	1,192	9,157
<b>Residents</b>	858	7,722
<b>Deficit</b>	No Deficit	No Deficit

*Source: 2022-2023 Audited Register; includes only students enrolled in D75 special classes*

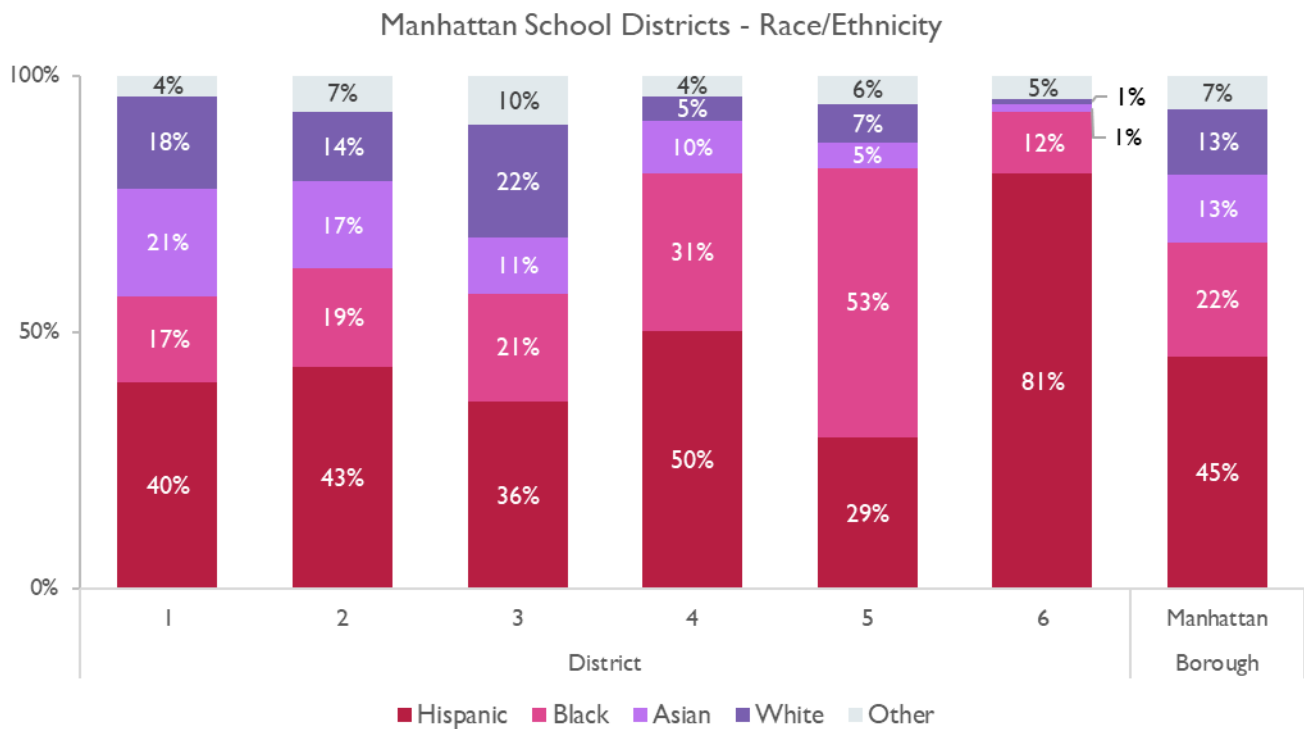

- District 75 serves students in a variety of settings across Manhattan high schools based on the IEPs of individual students.
- Overall, Manhattan has enough seats to accommodate all District 75 high school students. However, seat capacity varies significantly across districts.
- There is currently a deficit of high school District 75 seats in District 3 (-97), District 4 (-105), and District 6 (-170).
  - The new eight-section secondary school opened in District 75 site P.S. M079 at M218 for the 2023-2024 school year will work to meet some of the need in District 6.

## DEMOGRAPHICS & STUDENT POPULATION

### STUDENTS SERVED IN THE BOROUGH

- Demographic data helps us understand the landscape of our districts and the different communities served.
- Guiding Questions:
  - How do the demographics of each district compare to the borough? Has this changed over time?
  - Are there any notable trends across district demographics?

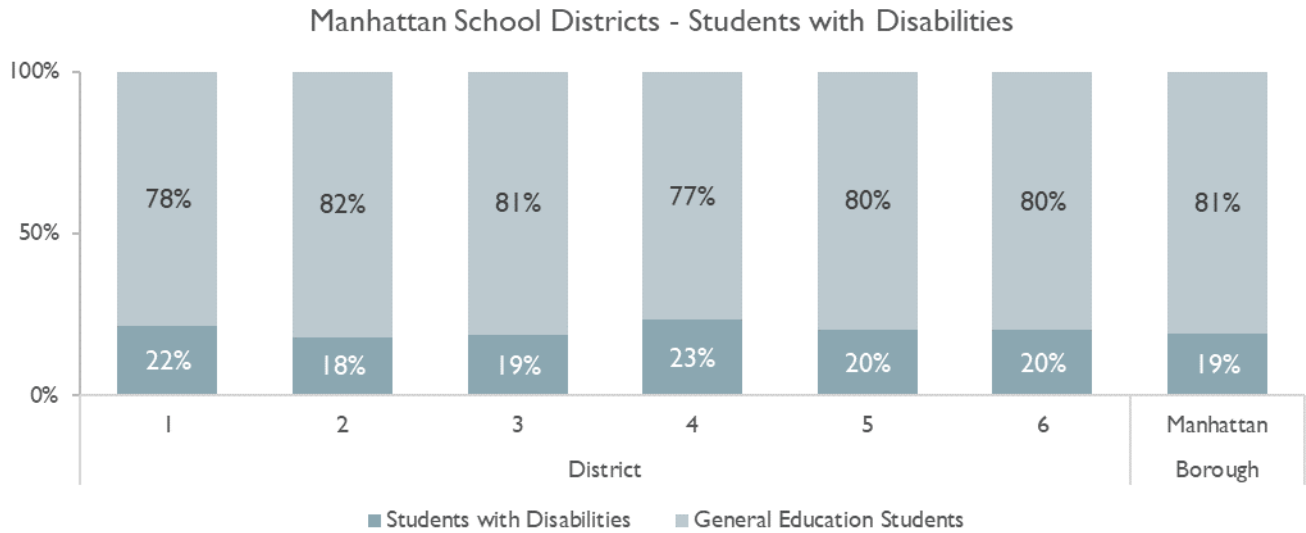

### RACE/ETHNICITY

Source: 2022-2023 Audited Register; includes both district and charter schools

- Across Manhattan, 45% of high school students identify as Hispanic, 22% identify as Black, 13% identify as Asian, 13% identify as White, and 7% of students identify as another race or their information is not available.
- The racial breakdown of District 2 high schools most closely resembles the borough, which could be attributed to the fact District 2 enrolls the largest number of high school students in Manhattan.

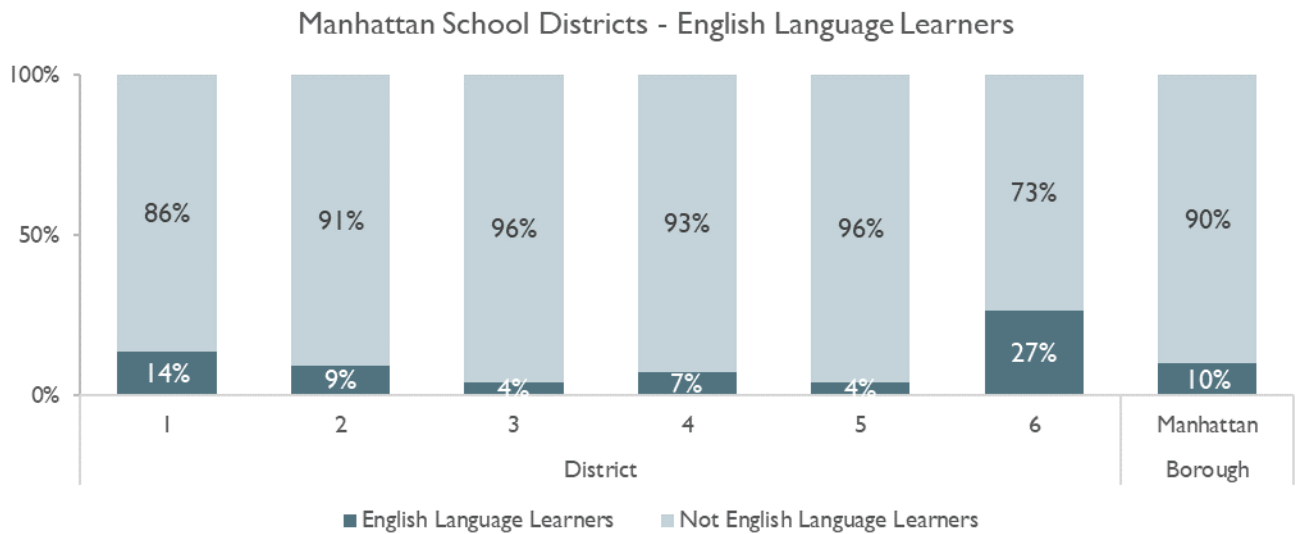

## STUDENTS WITH DISABILITIES

Source: 2022-2023 Audited Register; includes district and charter schools

- About 19% of students in Manhattan high schools have Individualized Educational Programs (IEPs).
- All Manhattan districts serve a relatively similar percentage of students with IEPs.

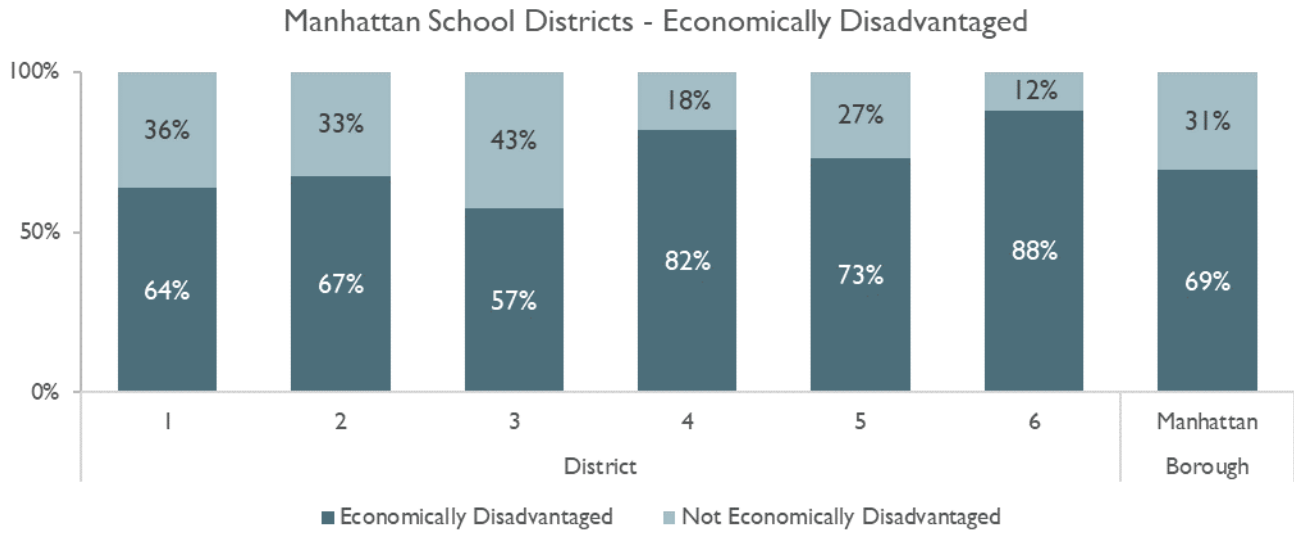

## ENGLISH LANGUAGE LEARNERS
