

Menu Nutrition Information

Our meals maintain high nutrition standards which meet and many times exceed USDA standards for school meals with whole grain rich products, reduced sodium, and only fat-free flavored milk. We do not use food additives such as artificial colors or flavors, non-nutritious sweeteners, or preservatives. For more information, please refer to our Prohibited Ingredients list.

- Meat: Our menu is completely pork free. All hamburgers are 100% beef. All chicken served is certified antibiotic-free.
- We serve vegetables from different subgroups (dark green, red-orange, beans-legumes, starchy and others) to ensure we offer students a diverse nutrient profile.
- Fiber: All breads and grains offered are at least 51% whole grain rich and contain at least 2g of fiber per serving.
- Our NY Thursday initiative offers locally produced breads, fruit, yogurts and entrees all made in New York State.

Note: Specific product brands are not specified in Menu Nutrition Information. Please speak to your School Food Service Manager for additional information if needed.
