#MULTILINGUALMONDAYS For Families and Students

Career and Technical Education: A Pathway for Your Middle School Child

Career and Technical Education (CTE) programs have seen great success in creating postsecondary pathways for English Language Learners upon high school graduation. Whether it is entry into college, career or a combination, students are better prepared to make informed decisions and have multiple options upon graduation.

Join this session to:

- Learn about over 290 Career and Technical Education (CTE) programs.
- Understand how your child can benefit from a CTE program.
- Understand how to apply to a CTE program during the high school admission process.

This session is for Middle School students and families
