CITYWIDE TRENDS

New York City Public Schools (NYCPS) is committed to thoughtful collaboration with districts and communities to collectively strengthen schools, support students and families, and respond to demographic and population changes in New York City.

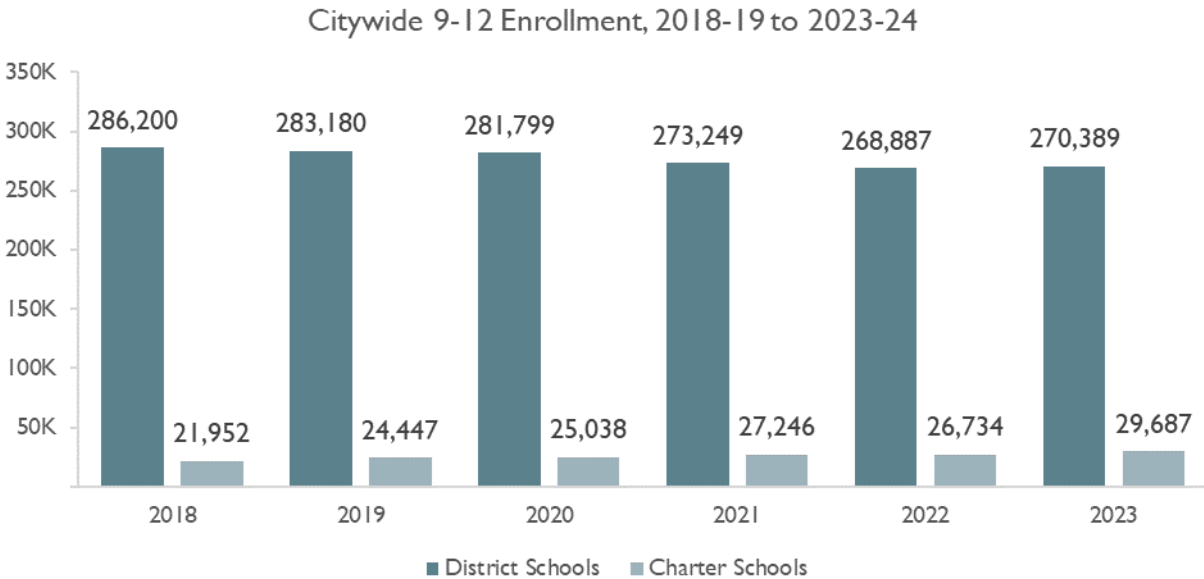

CITYWIDE ENROLLMENT (DISTRICT AND CHARTER), 2013-14 TO 2022-23

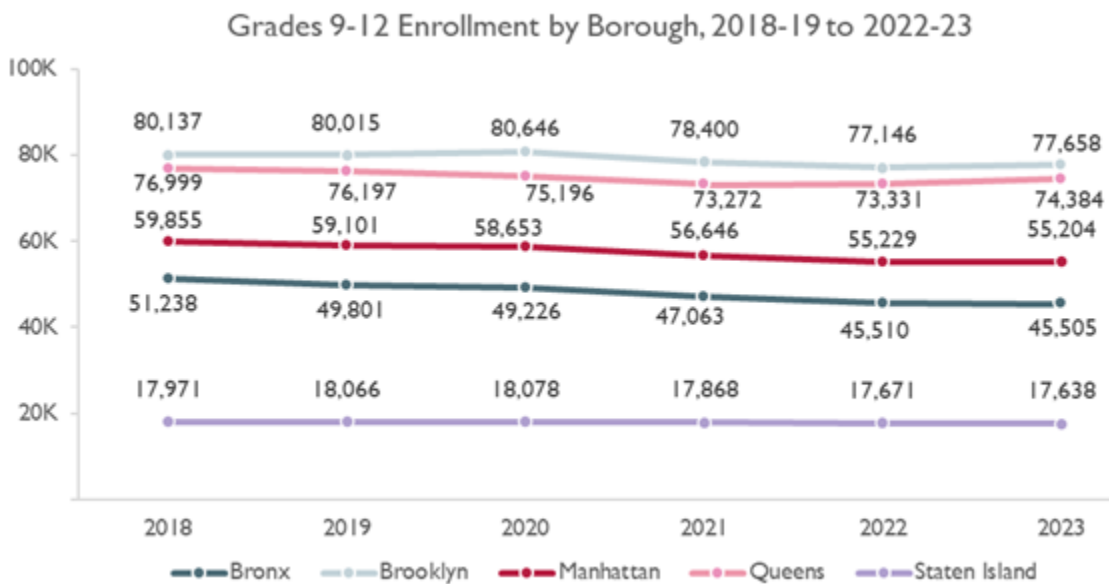

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

- Enrollment in D1-32 schools remained stable in 2023-2024 after declining by about 12% in the three school years since the onset of the COVID-19 pandemic.
- Overall, K-12 enrollment in District 1-32 schools and charter schools has declined by about 11% since its peak in the 2016-2017 school year.

CITYWIDE 9-12 ENROLLMENT (DISTRICT AND CHARTER), 2018-19 TO 2023-24

Source: Audited Register and Charter Headcount; includes district and charter school enrollment

Source: Audited Register; includes district 1-32 schools only

- Queens high school enrollment is largely aligned with Citywide enrollment trends.
- High school enrollment in charter schools has increased by 35% since the 2018-2019 school year, now comprising about 10% of high school students in public schools.

DISTRICT PLANNING PROCESS

RECENT SCHOOL CHANGES

- The Office of District Planning partners with superintendents and communities to address district needs in accordance with Chancellor’s Regulation A-190.
 - **Chancellor’s Regulation A-190** governs the process to make any major changes to school utilization such as co-locations, school mergers, grade expansions and truncations, re-sitings, and other changes. A-190 proposals are voted on by the Panel for Educational Policy (PEP).
- Guiding Questions:
 - How might recent changes affect district/borough needs as they are implemented? Do they address key needs and priorities?
 - What other school changes should be considered?

CHANGES IN [BORO] – 2021-22 TO 2024-25

Implementation Year	Change Type	Description	Impacted DBN(s)	Impacted Building(s)
2024-2025	New D75 Site	Opening and Co-location of a New Site of Queens Transition Center (75Q752) with 29Q248, 29Q265, 29Q272 and 29Q283 in Building Q420	75Q752	Q420
2024-2025	New School DBN, Co-location	Opening and Temporary Co-location of Motion Picture Technical High School (30Q367) with I.S. 429 (30Q429) in Building Q429	30Q367	Q429
2022-2023	New School DBN, Co-location	Opening and Temporary Co-location of Gotham Tech High School (30Q417) with Newcomers High School (30Q555) in Building Q450	30Q417	Q450
2021-2022	New D75 Site	Opening and Co-location of a New Site of P.S. Q177 (75Q177) with 26Q435 and 26Q315 in Building Q435	75Q177	Q435
2021-2022	Re-sited DBN	Academy of American Studies re-sited to new building (Q575) in February 2022	30Q575	Q450

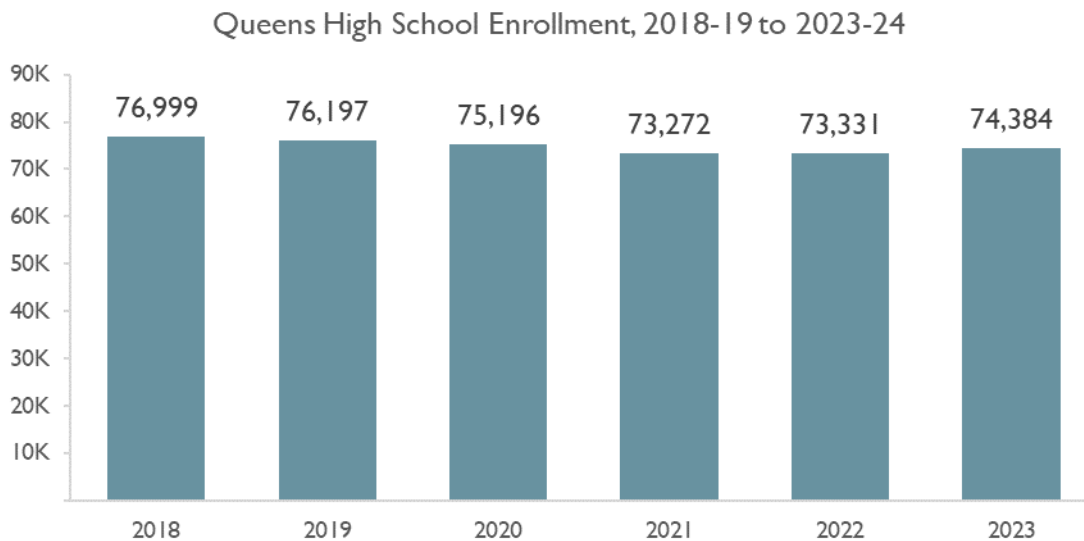

- Motion Picture Tech is opening grade 9 in the 2024-2025 school year in building Q429, where it will be temporarily co-located for one year with I.S. 429, before moving to its permanent location in new building Q472 in September 2025.
 - Motion Picture Tech will add 800-900 seats of new high school capacity in Queens by the 2027-2028 school year once fully phased in.
- Gotham Tech High School is also planned to be re-sited to new building Q472 (Northern Blvd.) beginning in the 2025-2026 school year, where it will continue to phase in and serve grades 9-12.

ENROLLMENT

UNPACKING ENROLLMENT TRENDS

- Enrollment is a key data component in the District Planning Process. Enrollment data helps us identify trends, make hypotheses, and understand where we need to dig deeper in partnership with our stakeholders.
- Guiding Questions:
 - What has happened to borough enrollment over the last six years overall? Are there notable trends?
 - Are students remaining in the borough to attend school? If not, where are they going?
 - Are students residing in other boroughs enrolling in large numbers?

QUEENS ENROLLMENT, 2018-19 TO 2023-24

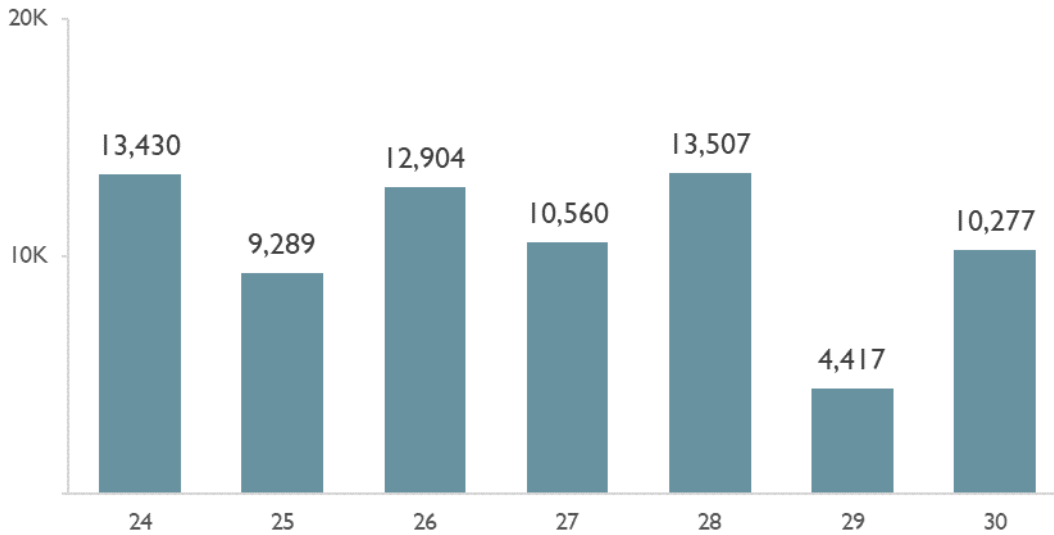

Source: Audited Register; includes district 1-32 schools only

- Since the 2018-2019 school year, total enrollment at district high schools in Queens has decreased by about 2,600 students, approximately 3%.
- However, enrollment has increased by just over 1,000 students in the last year, indicating potential stabilization.

Source: Audited Register; includes district 1-32 schools only

- Over the last five years, high school enrollment declined in every district except Districts 27, 29 and 30.
- District 29 enrolls the smallest number of students, but saw a 7% increase over the last year, which is the highest enrollment increase compared to other districts across Queens.
- While District 28's enrollment has declined 10% over the last five years, it has stayed stable over the last year, and District 28 continues to enroll the highest number of high school students in Queens.

CHARTER ENROLLMENT IN QUEENS

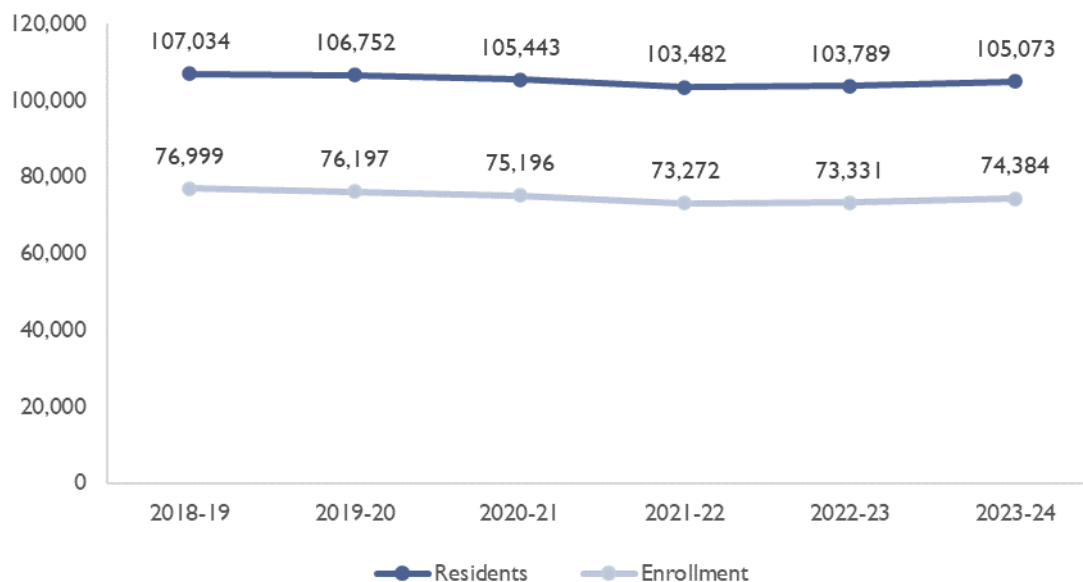

Source: 2023-2024 Audited Register

- Charter high schools located in District 27 enroll the highest number and percentage of students in Queens (898 students, 8%).
- There are no charter schools with high school grades located in Districts 25, 26, or 29.

Residential population is presented here as the sum of students attending any NYCPS school, charter or non-public school; as such, this metric will not capture students who are home schooled, have dropped out, or are otherwise not enrolled in these school options.

- Over the last five years, the number of high school aged residents residing in Queens has declined by 2%. The 2% decline in residents is comparable to the 3% decline in enrollment seen in Queens high schools over this same period.
- Notably, District 29 saw a 10% decrease in residents but had a 4% increase in enrollment over the last five years, meaning more families are choosing District 29 high schools.

- While the total number of high school aged residents in Queens decreased over the last five years, enrollment choices have stayed about the same over the same period.

HOW BOROUGH RETENTION COMPARES TO OTHER DISTRICTS & BOROUGHS

Borough Retention - By District

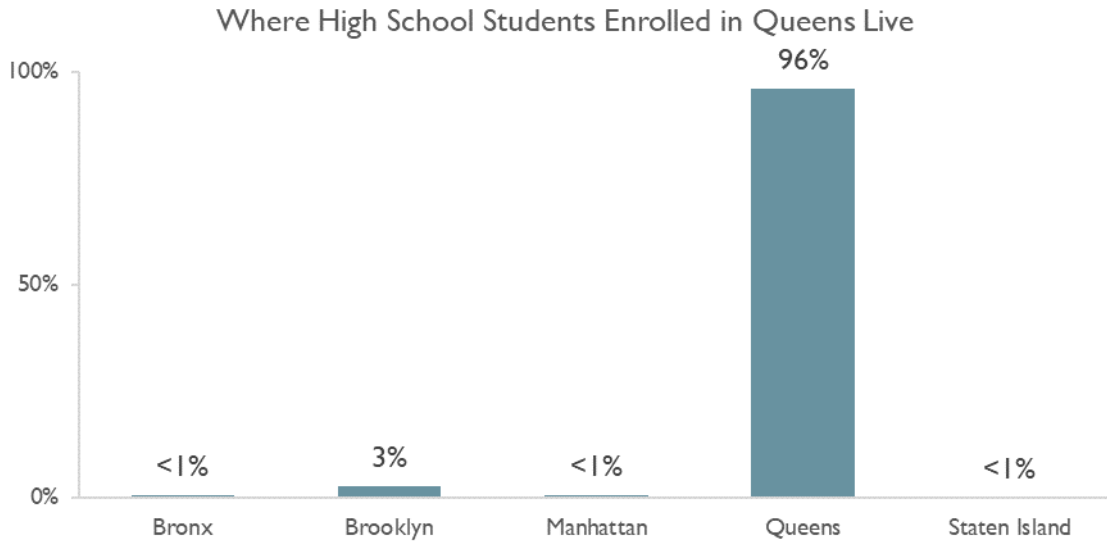

Borough Retention - By Borough

Source: Audited Register; percentage includes only students attending D1-32 schools.

- All districts in Queens have a borough retention rate over 60%, with District 29 continuing to have the highest at 76%.
- Queens has the second highest borough retention rate in the city at approximately 68%.

WHERE HIGH SCHOOL STUDENTS ENROLLED IN QUEENS LIVE

Source: 2023-2024 Audited Register

- Over 95% of high school students who attend high schools in Queens are residents of the borough.
- A small percentage of high school students attending high schools in Queens live in Brooklyn.

QUEENS HS ENROLLMENT MODEL (“IN-OUT MODEL”)

The table below depicts the prevailing trends for students coming into and leaving the borough - "in" and "out" - to help identify the primary drivers of district school enrollment change.

- There are four Queens schools serving high school students with enrollment in the bottom 25% citywide.
 - Rockaway Park High School for Environmental Sustainability (27Q324) and Rockaway Collegiate High School (27Q351) are co-located on the Beach Channel Campus (Q410). Both schools have seen enrollment decline, losing 25% and 16% respectively, over the last 5 years.
 - Gotham Tech opened in the 2022-2023 school year and is still phasing in.
 - In the 2025-2026 school year, Gotham Tech will be re-sited to Q472 where it is expected to grow to serve 800-900 students at full scale.
 - International High School for Health Sciences is designed small and has relatively high demand, with more applicants than available seats.

HIGH DEMAND HIGH SCHOOLS IN QUEENS

- The table below includes the highest demand schools at the 9th grade in the borough based on applications.
- Examining high demand schools can help identify models or programs that may be serving students well and inform other changes in the borough through the planning process.

- Queens high schools listed above as high demand have a variety of programs students can apply to, including Law & Government, Science & Math, Art & Design, and Computer Science.
 - Most of these schools have screened admissions programs.
 - Townsend Harris High School had the highest number of applicants in Fall 2024.

ENROLLMENT VS. CAPACITY

- We consider the total number of students and the total number of seats to see if there is a net surplus or deficit of seats within a district.
- Some districts, and particular areas within a district, struggle with over-utilization, while others have excess capacity.

Queens High School Enrollment vs. Capacity by District

- Queens has the highest high school seat need of all the boroughs with a deficit of over 4,000 seats.
 - There are only two districts, Districts 27 and 29, with excess high school capacity.

Based on a New York City School Construction Authority report from October 2023. Includes only projects for grades K-12. Opening timelines are subject to change.

- The additions and new buildings anticipated to be completed in the coming years allow for the opportunity to alleviate over-utilization across high schools in Queens.
- Over 5,000 new seats of capacity will be added by 2027 to address the high school seat need.
- New building Q472 will open for the 2025-2026 school year and house four new high schools:
 - Motion Picture Tech (30Q367) will incubate in Q429 for the 2024-2025 school year, adding 190-200 seats of high school capacity in advance of the opening of building Q472.
 - Gotham Tech High School (30Q417), currently co-located with Newcomers High School (30Q450), will also be re-sited to building Q472 as its permanent site and will continue to phase in until it reaches its full scale.
 - The Northwell School of Health Sciences (30Q472) and a new high school site of District 75 school, P993Q@Q472, are planned to open in building Q472 as well.

BUILDINGS & CAPACITY

- The Office of District Planning works closely with the School Construction Authority (SCA) and the Office of Space Management to understand how buildings are currently used and how capacity can best be used in future years.
- Each year, the SCA publishes the Blue Book, a tool that analyzes the capacity of each NYCPS building across the City and compares the target capacity with the number of enrolled students to determine a utilization rate for the building.
- Guiding Questions:
 - Given the current enrollment and capacity, does the district have sufficient capacity to meet its needs and support its students?
 - Is over- or under-utilization concentrated at a particular grade level? In a particular area?
 - Are there under-utilized buildings with excess capacity to accommodate an additional school or program?

Source: Building information from LCGMS. Building utilization categories based on the 2022-2023 Blue Book.

- There are 81 buildings in Queens serving high school students.
- 22 DOE buildings with high schools are under-utilized, meaning there is an excess of seats in these buildings.
 - District Planning works collaboratively with communities to identify how to optimize excess space in buildings, including adding programming where demand aligns to space.
- 33 buildings with high school students are over-utilized, which suggests there may be crowding and/or space challenges at those schools.

- Utilization rates do not always capture the full narrative of space in a building but provide a starting point for assessing potential space availability. For example, some buildings, although under-utilized, may not have sufficient space to add new schools or programming. Other buildings have significant excess seats and rooms.
- These could be candidates to address pressing district needs, including adding or expanding programs such as dual language offerings, District 75 programming, Autism Spectrum Disorder (ASD) Nest and Horizon programs, and/or other district needs where demand aligns.
- Most building on this list house two or more co-located schools, and excess space is shared across organizations.
- In the 2024-2025 school year, a new high school District 75 site is opening in building Q420, which will utilize some of the excess capacity captured above. Existing District 75 programs at Q485 and Q452 are also being expanded for next school year.
- A 795-seat addition opened at Q415 (Cardozo) and the building is anticipated to be under-utilized in the next iteration of the Blue Book.

OVER-UTILIZED BUILDINGS

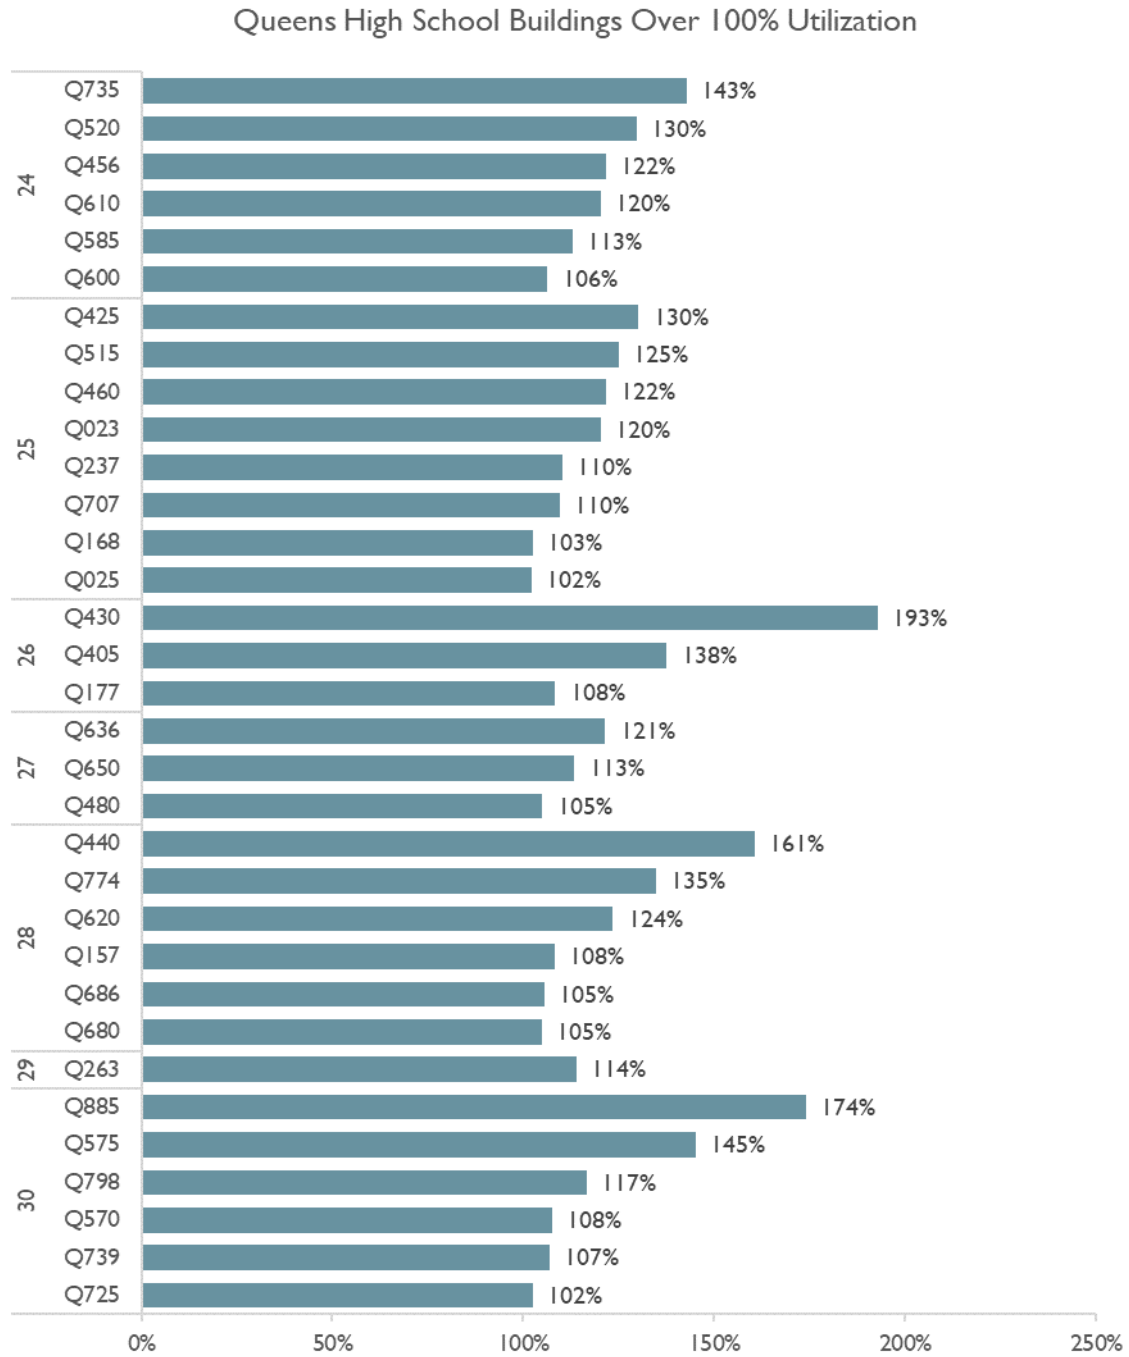

Queens High School Buildings Over 100% Utilization by District

Source: 2022-2023 Blue Book

- 33 NYCPS buildings serving high school students in Queens that have utilization rates over 100%.
 - District 25 has the greatest number of over-utilized buildings in the borough.
- Schools in these buildings may experience high demand, and therefore may be programming creatively to accommodate students.

- The TCUs at Cardozo, Francis Lewis, and John Bowne have been or will be replaced by new permanent capacity.

DISTRICT 75 SEAT NEED

- NYCPS’s District 75 provides highly specialized instructional support for students with significant challenges, such as Autism Spectrum Disorder (ASD), significant cognitive delays, emotional disturbance, sensory impairment, and multiple disabilities.
- District 75 serves students through a number of different program models designed for students of different ages and education needs.
 - Most District 75 students attend Special Class programs, which operate as distinct schools and may be located in standalone sites or co-located with district schools.
 - A smaller number of students attend Inclusion Programs, in which students receive District 75 services within general education classes at a district school partner.
- Guiding Questions:
 - Does the district have a need for more District 75 seats?
 - Are there potential options for new District 75 sites to provide opportunities for students to attend programs closer to their homes?
